Notes on This Draft Brochure

This brochure has been prepared as a comprehensive working draft covering every specialisation track announced in the Business School's call for applications. Two categories of content require verification and completion by NOUN Business School before publication and print:

- Named institutional statements — the Vice Chancellor's Welcome Message and the Business School Director's Address are drafted in full but carry placeholder names/signatures pending confirmation of the incumbents and their preferred wording.
- Course codes — the codes shown throughout follow a consistent, proposed numbering convention (e.g. MBA-DBT 711) to give the document structure and cross-referencing. These are indicative and should be ratified against the official course-coding scheme approved by the NOUN Senate/Academic Board before publication.

All programme overviews, objectives, career outcomes and course architectures are original curriculum content prepared to reflect the tracks listed in the Business School's admission advertisement, structured for Senate review and refinement by the relevant subject-matter specialists.

Join Our Maiden Cohort ……136

Vice Chancellor's Welcome Message

It is with immense pride that I welcome you to the National Open University of Nigeria (NOUN) Business School, Abuja, as we launch our maiden admission exercise for the 2026/2027 academic session.

The National Open University of Nigeria has, for over three decades, carried the torch of open and flexible learning to Nigerians in every corner of the federation and beyond. The establishment of a dedicated Business School, situated at the seat of government in Abuja, marks a deliberate and strategic evolution of that mission: to produce technology-enabled, globally competitive and nationally committed business leaders capable of steering Nigerian enterprise, public institutions and civil society through an era of rapid economic and technological change.

Our Business School is built on the conviction that management education must be both rigorous and accessible — that a working professional in Kano, a public servant in Enugu, or an entrepreneur in Port Harcourt deserves the same quality of graduate business education as anyone studying on a traditional campus. Through our blended and Open Distance Learning model, we bring world-class curricula, distinguished faculty and structured mentorship directly to you, wherever you serve.

I invite you to join this pioneering cohort — to help shape the culture, standards and legacy of a Business School that will, in time, be counted among Africa's finest. Welcome to NOUN Business School.

[Vice Chancellor's Name]
Vice Chancellor, National Open University of Nigeria

Business School Director's Address

Welcome to a new chapter in Nigerian management education.

As Director of NOUN Business School, I am honoured to introduce a suite of programmes — a Graduate Diploma, thirty MBA/MPA specialisation tracks, thirty DBA/DPA specialisation tracks, and a range of Executive Certificate Programmes — designed not as a generic catalogue, but as a deliberate response to the specific challenges facing Nigerian and African organisations today: digital disruption, energy transition, governance reform, security, financial innovation and the demand for globally benchmarked leadership.

Our curriculum architecture reflects a 60:40 balance of deep domain expertise to applied, technology-enabled learning. Every track combines a rigorous foundational core with specialisation courses co-designed with practitioners, culminating in a live capstone project or, for our doctoral candidates, an applied dissertation grounded in real organisational problems. Our strategic location in Abuja places our students within reach of policymakers, regulators, over seventy diplomatic missions and a fast-growing technocratic and entrepreneurial class — an ecosystem few business schools can offer.

To our maiden cohort: you are not merely enrolling in a programme, you are helping to establish the standards, character and reputation of this Business School. We take that responsibility, and our responsibility to you, seriously.

Professor Samaila Mande
Director, NOUN Business School

About NOUN Business School

Institutional Identity

NOUN Business School is a specialised graduate school of the National Open University of Nigeria, established to deliver postgraduate management education — Graduate Diploma, MBA, MPA, DBA, DPA and Executive Certificate Programmes — through a blended Open Distance Learning (ODL) model. Headquartered at the NOUN Headquarters, University Village, Jabi, Abuja, the School is positioned at the seat of Nigeria's Federal Government, offering unrivalled access to policymakers, regulators, diplomatic missions and a fast-growing technocratic and entrepreneurial class.

Our Commitment to Flexible, High-Quality Higher Education

NOUN Business School exists on the conviction that access and excellence are not competing goals. Our Open Distance Learning model — combining weekend and evening study, intensive residencies, and digital learning platforms — is built for the realities of Nigeria's working professionals, public servants, entrepreneurs and mid-career executives: people for whom a conventional full-time campus programme is not a realistic option, but for whom rigorous, internationally benchmarked business education is a professional necessity.

We hold ourselves to the same standards of scholarship, faculty quality and assessment rigour as any full-time programme. What differs is the mode of delivery, not the depth of learning. Every track is designed around a practice-ready curriculum, applied capstone projects, live consultancy engagements, and an Industry Partnership Consortium that keeps our curriculum current and our graduates employable from the day they resume.

Vision

To be a leading centre of flexible, technology-enabled business and management education in Africa, producing globally competitive and nationally committed leaders.

Mission

To deliver accessible, rigorous and practice-relevant graduate business education through Open Distance Learning, equipping professionals across Nigeria and Africa with the strategic, technical and ethical competencies required to lead organisations in a rapidly changing global economy.

Why Choose NOUN Business School?

- Flexible Global Open Distance Learning model suited to working professionals, public servants and entrepreneurs
- Pathway toward international accreditation and pan-African academic partnerships
- Practice-ready curriculum with a 60:40 ratio of domain expertise to applied, technology-enabled learning
- Capstone projects, live consultancy engagements and an Industry Partnership Consortium of leading organisations
- Strategic Abuja location — proximity to the Federal Government, CBN, SEC, over 70 diplomatic missions and multilateral agencies

Brochure Theme

This brochure is themed around the motif of the Open Gateway — reflecting NOUN Business School's role as an accessible gateway into rigorous graduate management education for every serious Nigerian professional, regardless of location or schedule. The colour palette — deep navy for institutional gravitas, gold for excellence and aspiration — recurs throughout every programme section, and each of the three qualification levels (Graduate Diploma, MBA, MPA, DBA, DPA) is presented as a step along a single, connected pathway of professional and scholarly growth.

General Admission Requirements

- Five (5) credits in WAEC/NECO/GCE O'Level (or equivalent), including English Language and Mathematics, at not more than two sittings, for all GDBA, MBA, and MPA applicants.
- Certified copies of academic transcripts and certificates from previously attended institutions.
- Two (2) professional or academic reference letters.
- Current Curriculum Vitae / Resume.
- Statement of Purpose (500–1,000 words) outlining the candidate's motivation and career goals.
- Valid means of identification (National ID, International Passport, or Driver's Licence).
- Evidence of relevant work experience, where applicable (GDBA, MBA, MPA, DBA and DPA applicants).

Key Dates

- Application Window: July 10 – August 9, 2026
- Screening / Admission Interviews: Mid-to-Late August 2026
- Release of Admission List: Late August 2026
- Resumption / Orientation: September 2026

How to Apply

- Visit the NOUN Business School admission portal and complete the online application form.
- Pay the prescribed non-refundable application fee via the portal.
- Upload all required documents (certificates, transcripts, CV, statement of purpose, references, valid ID).
- Submit the completed application before the closing date of August 9, 2026.
- Shortlisted candidates will be contacted for screening/interview.

1. Graduate Diploma in Business Administration (GDBA)

Programme Overview

The Graduate Diploma in Business Administration (GDBA) is the foundation pathway into the MBA/MPA programme, designed for graduates of any discipline — as well as HND holders — who require a structured grounding in core business and management fundamentals before proceeding to specialised postgraduate study. Delivered over one year (two semesters) through a blended/Open Distance Learning model with weekend and evening study options, the GDBA equips candidates with the conceptual toolkit and academic writing competence required for rigorous graduate-level business education.

Award	Graduate Diploma in Business Administration (GDBA)
Duration	2 Semesters (minimum) / 4 Semesters (maximum)
Mode of Study	Open and Distance Learning (ODL) — blended print, e-learning, tutorials, and examinations
Awarding Institution	National Open University of Nigeria, NOUN Business School

Philosophy & Objectives

- To provide a rigorous conversion pathway into postgraduate business study for non-business and HND graduates
- To build foundational competence in management, economics, accounting, marketing and quantitative methods
- To develop academic and professional communication skills required for graduate study
- To prepare candidates to proceed directly into the MBA programme upon satisfactory completion

Career Outcomes

- Direct progression into any of the 30 MBA/MPA specialisation tracks
- Enhanced eligibility for management-track roles in candidates' current organisations
- Strengthened analytical, communication and quantitative competence for early/mid-career professionals

Admission & Entry Requirements

First Degree (any discipline) from a recognised university with a minimum of Third Class, or HND with a minimum of Lower Credit, plus five (5) O'Level credits including English Language and Mathematics. Candidates who complete the GD with a satisfactory CGPA proceed directly to the MBA/MPA.

Programme Structure & Course Content

The GDBA comprises fourteen courses across two semesters plus a bridging directed-study project, as follows:

Code	Course Title	Units
GDBA 501	Principles of Management	3
GDBA 502	Principles of Economics for Managers	3
GDBA 503	Financial Accounting I	3

Code	Course Title	Units
GDBA 504	Business Communication & Report Writing	3
GDBA 505	Principles of Marketing	3
GDBA 506	Business Mathematics & Statistics	3
GDBA 507	Business Law	3
GDBA 521	Organisational Behaviour	3
GDBA 522	Financial Accounting II	3
GDBA 523	Human Resource Management	3
GDBA 524	Introduction to Strategic Management	3
GDBA 525	Information Systems for Business	3
GDBA 526	Entrepreneurship Development	3
GDBA 600	Bridging Project (Directed Study)	2

Graduation Requirements

- Minimum of 41 credit units across both semesters
- Minimum Cumulative Grade Point Average (CGPA) of 2.50 on a 5-point scale
- Satisfactory completion and submission of the Bridging Project (GDBA 207)
- Full clearance of all academic and administrative obligations to the University
- Candidates meeting the minimum CGPA threshold are eligible for direct progression to the MBA/MPA programme

2. Master of Business Administration (MBA/MPA) — Thirty Specialisation Tracks

Programme Overview

The MBA/MPA programme is a two-year (four-semester), Senate-approved graduate management qualification comprising a Foundational Core taken by all candidates in Semester 1, followed by a chosen specialisation track from Semester 2 onward, and concluding with a Capstone Project. The programme is delivered through a blended/Open Distance Learning model with intensive weekend residencies, combining rigorous academic instruction with applied, practice-based learning.

Award	Master of Business Administration (MBA)
Duration	4 Semesters (minimum) / 8 Semesters (maximum)
Mode of Study	Open and Distance Learning (ODL) — blended print, e-learning, tutorials, and examinations
Awarding Institution	National Open University of Nigeria, NOUN Business School

Philosophy & Objectives

- To develop broad-based managerial competence alongside deep specialisation expertise
- To combine rigorous academic grounding with live, applied consultancy-style learning
- To produce graduates immediately effective in Nigerian and African organisational contexts
- To build networks of practice through cohort-based residencies and Industry Partnership engagement

General Admission & Entry Requirements (All MBA/MPA Tracks)

Bachelor's degree (minimum Second Class Lower) from a recognised university in any discipline, or HND (minimum Upper Credit), plus five (5) O'Level credits including English Language and Mathematics. Holders of a Third Class/Lower Credit may be considered with the GDBA or relevant cognate professional experience. A minimum of two (2) years post-qualification work experience is required.

Foundational Core — Semester 1 (Common to All 30 MBA/MPA Tracks)

Every MBA candidate, regardless of specialisation, completes the following eight-course foundational core in Semester 1 before proceeding to specialisation courses in Semester 2:

Code	Course Title	Units
MBA 701	Managerial Economics	3
MBA 702	Financial Accounting & Reporting	3
MBA 703	Organisational Behaviour & Leadership	3
MBA 704	Marketing Management	3
MBA 705	Quantitative Methods & Business Statistics	3
MBA 706	Strategic Management	3

Code	Course Title	Units
MBA 707	Business Research Methods	3
MBA 708	Corporate Finance	3

Programme Architecture (All Tracks)

- Semester 1: Foundational Core (8 courses, 24 units) — common to all specialisations
- Semesters 2–3: Specialisation Core (5 courses) and Electives (2 of 4 offered) — track-specific, detailed in each track profile below
- Semester 4: Capstone Project — an applied, organisation-based consulting project in the candidate's specialisation

General Graduation Requirements (All MBA/MPA Tracks)

- Minimum of 54 credit units across the four semesters (Foundational Core, Specialisation Core, Electives and Capstone)
- Minimum Cumulative Grade Point Average (CGPA) of 3.00 on a 5-point scale
- Successful completion, oral defence and submission of the Capstone Project
- Satisfactory completion of all weekend residency and Industry Partnership Consortium engagement requirements
- Full clearance of all academic and administrative obligations to the University

Detailed profiles for each of the 30 MBA specialisation tracks — including programme overview, philosophy, career outcomes, specialisation course content and track-specific graduation notes — follow below.

2.1 MBA in Digital Business Transformation

Prepares managers to lead enterprise-wide digital change, from process automation to data-driven business models, in organisations across Nigeria's rapidly digitising economy.

Philosophy & Objectives

- Equip candidates to design and lead digital transformation roadmaps
- Build fluency in digital business models, platforms and ecosystems
- Develop capability to manage organisational change through technology adoption
- Instil data-informed decision-making as a core managerial competence

Career Outcomes

- Chief Digital Officer
- Digital Transformation Consultant
- Head of Innovation
- IT/Business Strategy Manager
- Digital Product Manager

Admission & Entry Requirements

As specified under General MBA Admission & Entry Requirements above. Preference is given to candidates with cognate professional experience relevant to Digital Business Transformation.

Programme Structure — Specialisation Core (Semesters 2–3)

Building on the Semester 1 Foundational Core, candidates undertake the following specialisation courses:

Code	Course Title	Units
MBA-DBT 711	Digital Business Strategy	3
MBA-DBT 712	Enterprise Systems & Process Automation	3
MBA-DBT 713	Data-Driven Decision Making	3
MBA-DBT 714	Change Management for Digital Enterprises	3
MBA-DBT 715	Platform & Ecosystem Business Models	3

Electives (Choose Two of Four)

Code	Course Title	Units
MBA-DBT 761	Cloud & Emerging Technology for Business	3
MBA-DBT 762	Digital Customer Experience Design	3
MBA-DBT 763	Agile & Lean Transformation	3
MBA-DBT 764	Technology Governance & Risk	3

Capstone Project

Digital Transformation Strategy Capstone Project (MBA-DBT 790): a live, organisation-based applied consulting project through which candidates demonstrate integrated mastery of the Digital Business Transformation specialisation core, presented and defended before a Faculty/Industry panel.

Graduation Requirements (Track-Specific Notes)

- In addition to the General MBA Graduation Requirements, candidates must complete all five specialisation core courses and two electives listed above, and the Capstone Project must be undertaken within the Digital Business Transformation domain.

2.2 MBA in FinTech and Financial Innovation

Develops leaders for Nigeria's financial technology sector, combining financial management fundamentals with innovation in digital payments, lending and financial inclusion.

Philosophy & Objectives

- Build deep understanding of fintech business models and regulatory frameworks
- Develop skills in digital payments, mobile money and alternative lending
- Prepare candidates to lead innovation within banks and fintech start-ups
- Strengthen risk and compliance competence specific to financial innovation

Career Outcomes

- Fintech Product Manager
- Head of Digital Banking
- Financial Innovation Consultant
- Payments Strategy Lead
- Regulatory & Compliance Manager (Fintech)

Admission & Entry Requirements

As specified under General MBA Admission & Entry Requirements above. Preference is given to candidates with cognate professional experience relevant to FinTech and Financial Innovation.

Programme Structure — Specialisation Core (Semesters 2–3)

Building on the Semester 1 Foundational Core, candidates undertake the following specialisation courses:

Code	Course Title	Units
MBA-FTI 711	Fintech Business Models & Innovation	3
MBA-FTI 712	Digital Payments & Mobile Money Systems	3
MBA-FTI 713	Financial Regulation & Compliance	3
MBA-FTI 714	Alternative Lending & Credit Analytics	3
MBA-FTI 715	Blockchain & Distributed Ledger Applications in Finance	3

Electives (Choose Two of Four)

Code	Course Title	Units
MBA-FTI 761	Financial Inclusion Strategy	3
MBA-FTI 762	Cybersecurity in Financial Services	3
MBA-FTI 763	Venture Financing for Fintech Start-ups	3
MBA-FTI 764	InsurTech & RegTech	3

Capstone Project

Fintech Innovation & Business Model Capstone Project (MBA-FTI 790): a live, organisation-based applied consulting project through which candidates demonstrate integrated mastery of the FinTech and Financial Innovation specialisation core, presented and defended before a Faculty/Industry panel.

Graduation Requirements (Track-Specific Notes)

- In addition to the General MBA Graduation Requirements, candidates must complete all five specialisation core courses and two electives listed above, and the Capstone Project must be undertaken within the FinTech and Financial Innovation domain.

2.3 MBA in Energy Transition and Sustainability Management

Prepares managers to lead organisations through Nigeria's energy transition, integrating renewable energy strategy, sustainability management and climate-conscious business practice.

Philosophy & Objectives

- Build competence in energy transition strategy and renewable energy business models
- Develop capacity to design and implement corporate sustainability programmes
- Strengthen understanding of climate policy, carbon markets and ESG frameworks
- Prepare candidates to manage energy projects across the transition value chain

Career Outcomes

- Sustainability Manager
- Renewable Energy Project Manager
- ESG & Climate Risk Analyst
- Energy Transition Consultant
- Corporate Sustainability Director

Admission & Entry Requirements

As specified under General MBA Admission & Entry Requirements above. Preference is given to candidates with cognate professional experience relevant to Energy Transition and Sustainability Management.

Programme Structure — Specialisation Core (Semesters 2–3)

Building on the Semester 1 Foundational Core, candidates undertake the following specialisation courses:

Code	Course Title	Units
MBA-ETS 711	Energy Transition Strategy & Policy	3
MBA-ETS 712	Renewable Energy Business Models	3
MBA-ETS 713	Corporate Sustainability & ESG Management	3
MBA-ETS 714	Climate Risk & Carbon Markets	3
MBA-ETS 715	Energy Project Finance	3

Electives (Choose Two of Four)

Code	Course Title	Units
MBA-ETS 761	Off-Grid & Mini-Grid Business Development	3
MBA-ETS 762	Circular Economy & Resource Management	3
MBA-ETS 763	Environmental Impact Assessment for Managers	3
MBA-ETS 764	Green Finance & Investment	3

Capstone Project

Energy Transition & Sustainability Strategy Capstone Project (MBA-ETS 790): a live, organisation-based applied consulting project through which candidates demonstrate integrated mastery of the Energy Transition and Sustainability Management specialisation core, presented and defended before a Faculty/Industry panel.

Graduation Requirements (Track-Specific Notes)

- In addition to the General MBA Graduation Requirements, candidates must complete all five specialisation core courses and two electives listed above, and the Capstone Project must be undertaken within the Energy Transition and Sustainability Management domain.

2.4 MBA in Entrepreneurship and Innovation Management

Builds the competencies required to found, scale and manage innovative ventures, with emphasis on Nigeria's entrepreneurial ecosystem and emerging-market venture growth.

Philosophy & Objectives

- Develop skills to identify, evaluate and launch viable business opportunities
- Build competence in venture financing, growth strategy and scaling
- Strengthen innovation management capability within existing organisations
- Prepare candidates to navigate emerging-market entrepreneurial ecosystems

Career Outcomes

- Startup Founder/CEO
- Innovation Manager
- Venture Capital Analyst
- Business Incubator/Accelerator Manager
- New Business Development Lead

Admission & Entry Requirements

As specified under General MBA Admission & Entry Requirements above. Preference is given to candidates with cognate professional experience relevant to Entrepreneurship and Innovation Management.

Programme Structure — Specialisation Core (Semesters 2–3)

Building on the Semester 1 Foundational Core, candidates undertake the following specialisation courses:

Code	Course Title	Units
MBA-EIM 711	New Venture Creation	3
MBA-EIM 712	Innovation & Design Thinking	3
MBA-EIM 713	Venture Financing & Growth Strategy	3
MBA-EIM 714	Business Model Design & Validation	3
MBA-EIM 715	Corporate Entrepreneurship & Intrapreneurship	3

Electives (Choose Two of Four)

Code	Course Title	Units
MBA-EIM 761	Social Entrepreneurship	3
MBA-EIM 762	Scaling Ventures in Emerging Markets	3
MBA-EIM 763	Technology Commercialisation	3
MBA-EIM 764	Franchising & Licensing	3

Capstone Project

New Venture Business Plan Capstone Project (MBA-EIM 790): a live, organisation-based applied consulting project through which candidates demonstrate integrated mastery of the Entrepreneurship and Innovation Management specialisation core, presented and defended before a Faculty/Industry panel.

Graduation Requirements (Track-Specific Notes)

- In addition to the General MBA Graduation Requirements, candidates must complete all five specialisation core courses and two electives listed above, and the Capstone Project must be undertaken within the Entrepreneurship and Innovation Management domain.

2.5 MPA in Public Policy and Governance Management

Equips public sector managers, policy analysts and civil society leaders with the analytical and managerial tools to design, implement and evaluate public policy.

Philosophy & Objectives

- Build capacity for evidence-based public policy design and analysis
- Develop competence in public sector governance, ethics and accountability
- Strengthen skills in public finance and budget management
- Prepare candidates to manage policy implementation and stakeholder engagement

Career Outcomes

- Policy Analyst
- Public Sector Manager
- Governance Advisor
- Development Programme Manager
- Regulatory Affairs Manager

Admission & Entry Requirements

As specified under General MBA Admission & Entry Requirements above. Preference is given to candidates with cognate professional experience relevant to Public Policy and Governance Management.

Programme Structure — Specialisation Core (Semesters 2–3)

Building on the Semester 1 Foundational Core, candidates undertake the following specialisation courses:

Code	Course Title	Units
MPA-PPG 711	Public Policy Analysis & Design	3
MPA-PPG 712	Public Sector Governance & Accountability	3
MPA-PPG 713	Public Finance & Budget Management	3
MPA-PPG 714	Policy Implementation & Evaluation	3
MPA-PPG 715	Government Relations & Stakeholder Management	3

Electives (Choose Two of Four)

Code	Course Title	Units
MPA-PPG 761	Local Government Administration	3
MPA-PPG 762	Anti-Corruption & Transparency Systems	3
MPA-PPG 763	Development Economics for Policy Managers	3
MPA-PPG 764	E-Government & Digital Public Services	3

Capstone Project

Public Policy Design & Evaluation Capstone Project (MPA-PPG 790): a live, organisation-based applied consulting project through which candidates demonstrate integrated mastery of the Public Policy and Governance Management specialisation core, presented and defended before a Faculty/Industry panel.

Graduation Requirements (Track-Specific Notes)

- In addition to the General MBA Graduation Requirements, candidates must complete all five specialisation core courses and two electives listed above, and the Capstone Project must be undertaken within the Public Policy and Governance Management domain.

2.6 MPA in Healthcare Administration and HealthTech Management

Prepares managers to lead hospitals, health systems and health-technology ventures, combining healthcare operations with digital health innovation.

Philosophy & Objectives

- Build competence in healthcare operations and quality management
- Develop skills in health system financing and health insurance management
- Strengthen capability to manage digital health and telemedicine ventures
- Prepare candidates for leadership across public and private health systems

Career Outcomes

- Hospital Administrator
- Health System Manager
- HealthTech Product Manager
- Health Insurance/HMO Manager
- Health Policy Consultant

Admission & Entry Requirements

As specified under General MBA Admission & Entry Requirements above. Preference is given to candidates with cognate professional experience relevant to Healthcare Administration and HealthTech Management.

Programme Structure — Specialisation Core (Semesters 2–3)

Building on the Semester 1 Foundational Core, candidates undertake the following specialisation courses:

Code	Course Title	Units
MPA-HHM 711	Healthcare Operations & Quality Management	3
MPA-HHM 712	Health Systems Financing & Insurance	3
MPA-HHM 713	Digital Health & Telemedicine Management	3
MPA-HHM 714	Healthcare Regulation & Ethics	3
MPA-HHM 715	Hospital Strategy & Leadership	3

Electives (Choose Two of Four)

Code	Course Title	Units
MPA-HHM 761	Pharmaceutical Supply Chain Management	3
MPA-HHM 762	Public Health Programme Management	3
MPA-HHM 763	Health Data Analytics	3
MPA-HHM 764	Medical Tourism & Wellness Business	3

Capstone Project

Healthcare/HealthTech Management Capstone Project (MPA-HHM 790): a live, organisation-based applied consulting project through which candidates demonstrate integrated mastery of the Healthcare Administration and HealthTech Management specialisation core, presented and defended before a Faculty/Industry panel.

Graduation Requirements (Track-Specific Notes)

- In addition to the General MBA Graduation Requirements, candidates must complete all five specialisation core courses and two electives listed above, and the Capstone Project must be undertaken within the Healthcare Administration and HealthTech Management domain.

2.7 MBA in Agribusiness and Food Systems

Develops managerial leaders for Nigeria's agricultural value chains, covering primary production through agro-processing, food systems policy and agri-finance.

Philosophy & Objectives

- Build competence in agribusiness value chain and farm-to-market management
- Develop skills in agro-processing operations and food systems logistics
- Strengthen capacity in agricultural finance and risk management
- Prepare candidates to design food security and agribusiness policy interventions

Career Outcomes

- Agribusiness Manager
- Agro-Processing Operations Manager
- Agricultural Finance Manager
- Food Systems Policy Analyst
- Commodity Trading Manager

Admission & Entry Requirements

As specified under General MBA Admission & Entry Requirements above. Preference is given to candidates with cognate professional experience relevant to Agribusiness and Food Systems.

Programme Structure — Specialisation Core (Semesters 2–3)

Building on the Semester 1 Foundational Core, candidates undertake the following specialisation courses:

Code	Course Title	Units
MBA-AFS 711	Agribusiness Value Chain Management	3
MBA-AFS 712	Agro-Processing & Food Manufacturing Operations	3
MBA-AFS 713	Agricultural Finance & Risk Management	3
MBA-AFS 714	Food Systems Policy & Security	3
MBA-AFS 715	Agricultural Marketing & Commodity Trade	3

Electives (Choose Two of Four)

Code	Course Title	Units
MBA-AFS 761	Climate-Smart Agriculture Management	3
MBA-AFS 762	Agri-Tech & Precision Farming	3
MBA-AFS 763	Cooperative & Smallholder Business Development	3
MBA-AFS 764	Export & International Agri-Trade	3

Capstone Project

Agribusiness Value Chain Capstone Project (MBA-AFS 790): a live, organisation-based applied consulting project through which candidates demonstrate integrated mastery of the Agribusiness and Food Systems specialisation core, presented and defended before a Faculty/Industry panel.

Graduation Requirements (Track-Specific Notes)

- In addition to the General MBA Graduation Requirements, candidates must complete all five specialisation core courses and two electives listed above, and the Capstone Project must be undertaken within the Agribusiness and Food Systems domain.

2.8 MBA in Logistics and Supply Chain Management

Prepares managers to design and operate efficient, resilient supply chains across manufacturing, retail and trade sectors within Nigeria and West Africa.

Philosophy & Objectives

- Build competence in end-to-end supply chain design and operations
- Develop skills in logistics network planning and warehousing
- Strengthen capability in supply chain risk and resilience management
- Prepare candidates to apply technology to logistics and distribution

Career Outcomes

- Supply Chain Manager
- Logistics Operations Director
- Warehousing & Distribution Manager
- Supply Chain Risk Analyst
- Freight & Trade Logistics Manager

Admission & Entry Requirements

As specified under General MBA Admission & Entry Requirements above. Preference is given to candidates with cognate professional experience relevant to Logistics and Supply Chain Management.

Programme Structure — Specialisation Core (Semesters 2–3)

Building on the Semester 1 Foundational Core, candidates undertake the following specialisation courses:

Code	Course Title	Units
MBA-LSC 711	Supply Chain Strategy & Design	3
MBA-LSC 712	Logistics & Distribution Management	3
MBA-LSC 713	Inventory & Warehouse Management	3
MBA-LSC 714	Supply Chain Risk & Resilience	3
MBA-LSC 715	Technology in Logistics (SCM Systems)	3

Electives (Choose Two of Four)

Code	Course Title	Units
MBA-LSC 761	International Trade & Freight Logistics	3
MBA-LSC 762	Sustainable & Green Logistics	3
MBA-LSC 763	Last-Mile & E-Commerce Logistics	3
MBA-LSC 764	Humanitarian Logistics	3

Capstone Project

Supply Chain Optimisation Capstone Project (MBA-LSC 790): a live, organisation-based applied consulting project through which candidates demonstrate integrated mastery of the Logistics and Supply Chain Management specialisation core, presented and defended before a Faculty/Industry panel.

Graduation Requirements (Track-Specific Notes)

- In addition to the General MBA Graduation Requirements, candidates must complete all five specialisation core courses and two electives listed above, and the Capstone Project must be undertaken within the Logistics and Supply Chain Management domain.

2.9 MBA in Procurement Management

Builds professional procurement leadership capability across public and private sectors, with emphasis on strategic sourcing, contract management and procurement compliance.

Philosophy & Objectives

- Develop competence in strategic sourcing and supplier relationship management
- Build skills in public and private sector procurement compliance
- Strengthen contract negotiation and management capability
- Prepare candidates to design procurement systems that deliver value for money

Career Outcomes

- Chief Procurement Officer
- Strategic Sourcing Manager
- Contracts Manager
- Public Procurement Officer
- Supplier Relationship Manager

Admission & Entry Requirements

As specified under General MBA Admission & Entry Requirements above. Preference is given to candidates with cognate professional experience relevant to Procurement Management.

Programme Structure — Specialisation Core (Semesters 2–3)

Building on the Semester 1 Foundational Core, candidates undertake the following specialisation courses:

Code	Course Title	Units
MBA-PRM 711	Strategic Sourcing & Category Management	3
MBA-PRM 712	Public Procurement Law & Compliance	3
MBA-PRM 713	Contract Management & Negotiation	3
MBA-PRM 714	Supplier Relationship & Performance Management	3
MBA-PRM 715	Procurement Ethics & Value for Money	3

Electives (Choose Two of Four)

Code	Course Title	Units
MBA-PRM 761	E-Procurement Systems	3
MBA-PRM 762	International Procurement & Trade	3
MBA-PRM 763	Construction & Works Procurement	3
MBA-PRM 764	Procurement Risk & Fraud Prevention	3

Capstone Project

Procurement Systems Design Capstone Project (MBA-PRM 790): a live, organisation-based applied consulting project through which candidates demonstrate integrated mastery of the Procurement Management specialisation core, presented and defended before a Faculty/Industry panel.

Graduation Requirements (Track-Specific Notes)

- In addition to the General MBA Graduation Requirements, candidates must complete all five specialisation core courses and two electives listed above, and the Capstone Project must be undertaken within the Procurement Management domain.

2.10 MBA in Project Management

Develops professional project managers competent across the full project life cycle, aligned to global standards (PMI/PRINCE2) and adapted to Nigerian project environments.

Philosophy & Objectives

- Build mastery of project planning, execution, monitoring and closure
- Develop competence in project risk, cost and quality management
- Strengthen skills in programme and portfolio management
- Prepare candidates for globally recognised project management practice

Career Outcomes

- Project Manager/Director
- Programme Manager
- PMO Lead
- Project Risk Manager
- Construction/Infrastructure Project Manager

Admission & Entry Requirements

As specified under General MBA Admission & Entry Requirements above. Preference is given to candidates with cognate professional experience relevant to Project Management.

Programme Structure — Specialisation Core (Semesters 2–3)

Building on the Semester 1 Foundational Core, candidates undertake the following specialisation courses:

Code	Course Title	Units
MBA-PJM 711	Project Planning & Scheduling	3
MBA-PJM 712	Project Risk, Cost & Quality Management	3
MBA-PJM 713	Programme & Portfolio Management	3
MBA-PJM 714	Project Procurement & Contract Administration	3
MBA-PJM 715	Agile & Adaptive Project Delivery	3

Electives (Choose Two of Four)

Code	Course Title	Units
MBA-PJM 761	Infrastructure & Construction Project Management	3
MBA-PJM 762	IT/Digital Project Management	3
MBA-PJM 763	Project Monitoring & Evaluation	3
MBA-PJM 764	International Development Project Management	3

Capstone Project

Project Management Capstone Project (MBA-PJM 790): a live, organisation-based applied consulting project through which candidates demonstrate integrated mastery of the Project Management specialisation core, presented and defended before a Faculty/Industry panel.

Graduation Requirements (Track-Specific Notes)

- In addition to the General MBA Graduation Requirements, candidates must complete all five specialisation core courses and two electives listed above, and the Capstone Project must be undertaken within the Project Management domain.

2.11 MBA in Peace and Conflict Management

Prepares managers and practitioners to design and lead conflict-sensitive interventions, mediation processes and peacebuilding programmes in Nigeria and the wider region.

Philosophy & Objectives

- Build analytical capacity to assess conflict dynamics and drivers
- Develop skills in mediation, negotiation and dialogue facilitation
- Strengthen competence in peacebuilding programme design and management
- Prepare candidates to manage conflict-sensitive organisational and community settings

Career Outcomes

- Peacebuilding Programme Manager
- Conflict Resolution Advisor
- Humanitarian/Development Programme Officer
- Community Relations Manager
- Security & Stability Consultant

Admission & Entry Requirements

As specified under General MBA Admission & Entry Requirements above. Preference is given to candidates with cognate professional experience relevant to Peace and Conflict Management.

Programme Structure — Specialisation Core (Semesters 2–3)

Building on the Semester 1 Foundational Core, candidates undertake the following specialisation courses:

Code	Course Title	Units
MBA-PCM 711	Conflict Analysis & Early Warning	3
MBA-PCM 712	Mediation & Negotiation Practice	3
MBA-PCM 713	Peacebuilding Programme Design & Management	3
MBA-PCM 714	Conflict-Sensitive Development	3
MBA-PCM 715	Post-Conflict Reconstruction & Reconciliation	3

Electives (Choose Two of Four)

Code	Course Title	Units
MBA-PCM 761	Gender, Peace & Security	3
MBA-PCM 762	Community Policing & Security Governance	3
MBA-PCM 763	Transitional Justice	3
MBA-PCM 764	Natural Resource Conflict Management	3

Capstone Project

Peacebuilding Programme Design Capstone Project (MBA-PCM 790): a live, organisation-based applied consulting project through which candidates demonstrate integrated mastery of the Peace and Conflict Management specialisation core, presented and defended before a Faculty/Industry panel.

Graduation Requirements (Track-Specific Notes)

- In addition to the General MBA Graduation Requirements, candidates must complete all five specialisation core courses and two electives listed above, and the Capstone Project must be undertaken within the Peace and Conflict Management domain.

2.12 MBA in Cyber-Risk and Information Security Management

Builds managerial competence in cybersecurity governance, risk management and digital resilience, preparing leaders to protect organisational information assets.

Philosophy & Objectives

- Develop competence in cyber-risk governance and management frameworks
- Build capability to design organisational information security strategy
- Strengthen skills in cyber-incident response and business continuity
- Prepare candidates to manage cybersecurity compliance and regulation

Career Outcomes

- Chief Information Security Officer
- Cyber-Risk Manager
- IT Governance Manager
- Information Security Consultant
- Data Protection Officer

Admission & Entry Requirements

As specified under General MBA Admission & Entry Requirements above. Preference is given to candidates with cognate professional experience relevant to Cyber-Risk and Information Security Management.

Programme Structure — Specialisation Core (Semesters 2–3)

Building on the Semester 1 Foundational Core, candidates undertake the following specialisation courses:

Code	Course Title	Units
MBA-CRM 711	Cybersecurity Governance & Strategy	3
MBA-CRM 712	Information Risk Management	3
MBA-CRM 713	Cyber-Incident Response & Business Continuity	3
MBA-CRM 714	Data Protection & Privacy Management	3
MBA-CRM 715	Security Compliance & Regulatory Frameworks	3

Electives (Choose Two of Four)

Code	Course Title	Units
MBA-CRM 761	Digital Forensics for Managers	3
MBA-CRM 762	Cloud & Infrastructure Security Management	3
MBA-CRM 763	Fraud & Financial Crime Prevention	3
MBA-CRM 764	Emerging Cyber-Threats & Technology Risk	3

Capstone Project

Information Security Strategy Capstone Project (MBA-CRM 790): a live, organisation-based applied consulting project through which candidates demonstrate integrated mastery of the Cyber-Risk and Information Security Management specialisation core, presented and defended before a Faculty/Industry panel.

Graduation Requirements (Track-Specific Notes)

- In addition to the General MBA Graduation Requirements, candidates must complete all five specialisation core courses and two electives listed above, and the Capstone Project must be undertaken within the Cyber-Risk and Information Security Management domain.

2.13 MBA in Defense and Strategic Strategies

Prepares managers and strategic analysts for leadership roles in defense-related institutions, national security agencies and strategic planning functions.

Philosophy & Objectives

- Build competence in strategic planning and defense resource management
- Develop analytical capability in national and regional security studies
- Strengthen skills in strategic decision-making under uncertainty
- Prepare candidates for leadership in defense and security-related institutions

Career Outcomes

- Strategic Planning Officer
- Defense/Security Sector Manager
- National Security Analyst
- Strategic Studies Consultant
- Intelligence & Risk Analyst

Admission & Entry Requirements

As specified under General MBA Admission & Entry Requirements above. Preference is given to candidates with cognate professional experience relevant to Defense and Strategic Strategies.

Programme Structure — Specialisation Core (Semesters 2–3)

Building on the Semester 1 Foundational Core, candidates undertake the following specialisation courses:

Code	Course Title	Units
MBA-DSS 711	Strategic Studies & National Security	3
MBA-DSS 712	Defense Resource & Programme Management	3
MBA-DSS 713	Geopolitics & Regional Security	3
MBA-DSS 714	Strategic Decision-Making & Wargaming	3
MBA-DSS 715	Security Sector Governance & Reform	3

Electives (Choose Two of Four)

Code	Course Title	Units
MBA-DSS 761	Intelligence Analysis for Managers	3
MBA-DSS 762	Counter-Terrorism Strategy	3
MBA-DSS 763	Maritime & Border Security Management	3
MBA-DSS 764	Crisis & Emergency Management	3

Capstone Project

Strategic Security Studies Capstone Project (MBA-DSS 790): a live, organisation-based applied consulting project through which candidates demonstrate integrated mastery of the Defense and Strategic Strategies specialisation core, presented and defended before a Faculty/Industry panel.

Graduation Requirements (Track-Specific Notes)

- In addition to the General MBA Graduation Requirements, candidates must complete all five specialisation core courses and two electives listed above, and the Capstone Project must be undertaken within the Defense and Strategic Strategies domain.

2.14 MBA in Family Business Management

Equips leaders of family-owned enterprises with the governance, succession and strategy tools required to professionalise and sustain multi-generational businesses.

Philosophy & Objectives

- Build competence in family business governance and succession planning
- Develop skills to professionalise family enterprise management structures
- Strengthen capability to manage family wealth, conflict and continuity
- Prepare candidates to lead growth and diversification in family firms

Career Outcomes

- Family Business CEO/Managing Director
- Family Office Manager
- Business Continuity/Succession Advisor
- Family Enterprise Consultant
- Chief Governance Officer (Family Firm)

Admission & Entry Requirements

As specified under General MBA Admission & Entry Requirements above. Preference is given to candidates with cognate professional experience relevant to Family Business Management.

Programme Structure — Specialisation Core (Semesters 2–3)

Building on the Semester 1 Foundational Core, candidates undertake the following specialisation courses:

Code	Course Title	Units
MBA-FBM 711	Family Business Governance	3
MBA-FBM 712	Succession Planning & Leadership Transition	3
MBA-FBM 713	Family Wealth & Estate Management	3
MBA-FBM 714	Professionalising Family Enterprises	3
MBA-FBM 715	Conflict Management in Family Firms	3

Electives (Choose Two of Four)

Code	Course Title	Units
MBA-FBM 761	Family Business Growth & Diversification Strategy	3
MBA-FBM 762	Next-Generation Leadership Development	3
MBA-FBM 763	Family Business Law & Structuring	3
MBA-FBM 764	Philanthropy & Legacy Management	3

Capstone Project

Family Business Succession & Governance Capstone Project (MBA-FBM 790): a live, organisation-based applied consulting project through which candidates demonstrate integrated mastery of the Family Business Management specialisation core, presented and defended before a Faculty/Industry panel.

Graduation Requirements (Track-Specific Notes)

- In addition to the General MBA Graduation Requirements, candidates must complete all five specialisation core courses and two electives listed above, and the Capstone Project must be undertaken within the Family Business Management domain.

2.15 MBA in Aviation Management

Prepares managers for leadership in airlines, airports and aviation-support businesses, covering aviation operations, safety, regulation and commercial strategy.

Philosophy & Objectives

- Build competence in airline and airport operations management
- Develop understanding of aviation safety, security and regulatory frameworks
- Strengthen skills in aviation commercial and revenue strategy
- Prepare candidates for leadership across the aviation value chain

Career Outcomes

- Airline/Airport Operations Manager
- Aviation Safety & Compliance Manager
- Aviation Commercial Strategy Manager
- Ground Handling Operations Manager
- Aviation Regulatory Affairs Manager

Admission & Entry Requirements

As specified under General MBA Admission & Entry Requirements above. Preference is given to candidates with cognate professional experience relevant to Aviation Management.

Programme Structure — Specialisation Core (Semesters 2–3)

Building on the Semester 1 Foundational Core, candidates undertake the following specialisation courses:

Code	Course Title	Units
MBA-AVM 711	Airline & Airport Operations Management	3
MBA-AVM 712	Aviation Safety & Security Management	3
MBA-AVM 713	Aviation Regulation & Policy	3
MBA-AVM 714	Aviation Commercial & Revenue Management	3
MBA-AVM 715	Air Transport Economics	3

Electives (Choose Two of Four)

Code	Course Title	Units
MBA-AVM 761	MRO & Aviation Maintenance Management	3
MBA-AVM 762	Cargo & Logistics Aviation Management	3
MBA-AVM 763	Airport Development & Infrastructure	3
MBA-AVM 764	Aviation Sustainability & Emissions Management	3

Capstone Project

Aviation Operations Strategy Capstone Project (MBA-AVM 790): a live, organisation-based applied consulting project through which candidates demonstrate integrated mastery of the Aviation Management specialisation core, presented and defended before a Faculty/Industry panel.

Graduation Requirements (Track-Specific Notes)

- In addition to the General MBA Graduation Requirements, candidates must complete all five specialisation core courses and two electives listed above, and the Capstone Project must be undertaken within the Aviation Management domain.

2.16 MBA in Migration Studies

Develops managerial and policy expertise in migration governance, labour mobility and diaspora engagement, relevant to government, multilateral and private-sector actors.

Philosophy & Objectives

- Build analytical capacity in migration drivers, patterns and policy
- Develop competence in labour migration and diaspora engagement management
- Strengthen skills in managing migration-related programmes and services
- Prepare candidates to advise on migration governance and protection frameworks

Career Outcomes

- Migration Programme Manager
- Diaspora Engagement Officer
- Labour Mobility Consultant
- Immigration/Border Management Advisor
- Refugee & Displacement Programme Manager

Admission & Entry Requirements

As specified under General MBA Admission & Entry Requirements above. Preference is given to candidates with cognate professional experience relevant to Migration Studies.

Programme Structure — Specialisation Core (Semesters 2–3)

Building on the Semester 1 Foundational Core, candidates undertake the following specialisation courses:

Code	Course Title	Units
MBA-MGS 711	Migration Theory & Policy	3
MBA-MGS 712	Labour Migration & Diaspora Management	3
MBA-MGS 713	Migration Governance & International Frameworks	3
MBA-MGS 714	Displacement, Refugees & Humanitarian Response	3
MBA-MGS 715	Migration Data & Programme Management	3

Electives (Choose Two of Four)

Code	Course Title	Units
MBA-MGS 761	Remittances & Diaspora Investment	3
MBA-MGS 762	Human Trafficking & Smuggling Prevention	3
MBA-MGS 763	Border & Immigration Management	3
MBA-MGS 764	Urban Migration & City Planning	3

Capstone Project

Migration Policy & Programme Design Capstone Project (MBA-MGS 790): a live, organisation-based applied consulting project through which candidates demonstrate integrated mastery of the Migration Studies specialisation core, presented and defended before a Faculty/Industry panel.

Graduation Requirements (Track-Specific Notes)

- In addition to the General MBA Graduation Requirements, candidates must complete all five specialisation core courses and two electives listed above, and the Capstone Project must be undertaken within the Migration Studies domain.

2.17 MBA in the Entertainment Economy and Creative Industries

Prepares managers to build and scale ventures across film, music, gaming and the wider creative economy, combining business fundamentals with creative-industry strategy.

Philosophy & Objectives

- Build competence in creative industry business models and value chains
- Develop skills in intellectual property, licensing and rights management
- Strengthen capability to finance, market and scale creative ventures
- Prepare candidates for leadership across Nigeria's growing creative economy

Career Outcomes

- Creative Industry Executive
- Entertainment Business Manager
- Content/IP Licensing Manager
- Talent & Artist Management Executive
- Creative Venture Founder

Admission & Entry Requirements

As specified under General MBA Admission & Entry Requirements above. Preference is given to candidates with cognate professional experience relevant to Entertainment Economy and Creative Industries.

Programme Structure — Specialisation Core (Semesters 2–3)

Building on the Semester 1 Foundational Core, candidates undertake the following specialisation courses:

Code	Course Title	Units
MBA-ECI 711	Creative Industry Business Models	3
MBA-ECI 712	Entertainment Finance & Production Management	3
MBA-ECI 713	Intellectual Property & Rights Management	3
MBA-ECI 714	Talent, Content & Artist Management	3
MBA-ECI 715	Creative Marketing & Audience Development	3

Electives (Choose Two of Four)

Code	Course Title	Units
MBA-ECI 761	Film & Television Business Management	3
MBA-ECI 762	Music Business & Streaming Economics	3
MBA-ECI 763	Gaming & Digital Content Business	3
MBA-ECI 764	Live Events & Festival Management	3

Capstone Project

Creative Industry Venture Capstone Project (MBA-ECI 790): a live, organisation-based applied consulting project through which candidates demonstrate integrated mastery of the Entertainment Economy and Creative Industries specialisation core, presented and defended before a Faculty/Industry panel.

Graduation Requirements (Track-Specific Notes)

- In addition to the General MBA Graduation Requirements, candidates must complete all five specialisation core courses and two electives listed above, and the Capstone Project must be undertaken within the Entertainment Economy and Creative Industries domain.

2.18 MBA in Executive Leadership

A general-management track for senior and emerging executives, focused on strategic leadership, decision-making and organisational transformation at the highest level.

Philosophy & Objectives

- Sharpen strategic thinking and executive decision-making capability
- Build advanced competence in leading organisational transformation
- Develop high-performance leadership and team-building skills
- Prepare candidates for board-level and C-suite responsibility

Career Outcomes

- Chief Executive Officer
- Chief Operating Officer
- Executive Director
- Senior Management Consultant
- Board Member/Non-Executive Director

Admission & Entry Requirements

As specified under General MBA Admission & Entry Requirements above. Preference is given to candidates with cognate professional experience relevant to Executive Leadership.

Programme Structure — Specialisation Core (Semesters 2–3)

Building on the Semester 1 Foundational Core, candidates undertake the following specialisation courses:

Code	Course Title	Units
MBA-EXL 711	Advanced Strategic Leadership	3
MBA-EXL 712	Executive Decision-Making	3
MBA-EXL 713	Leading Organisational Transformation	3
MBA-EXL 714	High-Performance Team Leadership	3
MBA-EXL 715	Corporate Governance for Executives	3

Electives (Choose Two of Four)

Code	Course Title	Units
MBA-EXL 761	Executive Negotiation & Influence	3
MBA-EXL 762	Crisis Leadership	3
MBA-EXL 763	Global Executive Perspectives	3
MBA-EXL 764	Board Effectiveness & Governance	3

Capstone Project

Executive Leadership Strategy Capstone Project (MBA-EXL 790): a live, organisation-based applied consulting project through which candidates demonstrate integrated mastery of the Executive Leadership specialisation core, presented and defended before a Faculty/Industry panel.

Graduation Requirements (Track-Specific Notes)

- In addition to the General MBA Graduation Requirements, candidates must complete all five specialisation core courses and two electives listed above, and the Capstone Project must be undertaken within the Executive Leadership domain.

2.19 MBA in Oil & Gas Management

Prepares managers for leadership across the upstream, midstream and downstream oil and gas value chain, with emphasis on Nigerian petroleum sector governance and commercial practice.

Philosophy & Objectives

- Build competence in oil and gas value chain operations and commercial management
- Develop understanding of petroleum sector policy, law and fiscal regimes
- Strengthen skills in energy project finance and risk management
- Prepare candidates for leadership across NOCs, IOCs and indigenous operators

Career Outcomes

- Oil & Gas Operations Manager
- Petroleum Commercial Manager
- Upstream/Midstream Project Manager
- Energy Regulatory Affairs Manager
- Petroleum Economics Analyst

Admission & Entry Requirements

As specified under General MBA Admission & Entry Requirements above. Preference is given to candidates with cognate professional experience relevant to Oil & Gas Management.

Programme Structure — Specialisation Core (Semesters 2–3)

Building on the Semester 1 Foundational Core, candidates undertake the following specialisation courses:

Code	Course Title	Units
MBA-OGM 711	Petroleum Industry Value Chain Management	3
MBA-OGM 712	Oil & Gas Policy, Law & Fiscal Regimes	3
MBA-OGM 713	Petroleum Project Finance & Economics	3
MBA-OGM 714	Upstream & Midstream Operations Management	3
MBA-OGM 715	HSE & Risk Management in Oil & Gas	3

Electives (Choose Two of Four)

Code	Course Title	Units
MBA-OGM 761	Gas Commercialisation & Domestic Gas Strategy	3
MBA-OGM 762	Petroleum Contracts & Joint Venture Management	3
MBA-OGM 763	Downstream & Petroleum Products Marketing	3
MBA-OGM 764	Local Content & Indigenisation Strategy	3

Capstone Project

Oil & Gas Business Strategy Capstone Project (MBA-OGM 790): a live, organisation-based applied consulting project through which candidates demonstrate integrated mastery of the Oil & Gas Management specialisation core, presented and defended before a Faculty/Industry panel.

Graduation Requirements (Track-Specific Notes)

- In addition to the General MBA Graduation Requirements, candidates must complete all five specialisation core courses and two electives listed above, and the Capstone Project must be undertaken within the Oil & Gas Management domain.

2.20 MBA in Infrastructure and Utility Regulation

Develops regulatory and managerial expertise for Nigeria's infrastructure and utility sectors, covering economic regulation, tariff design and regulatory governance.

Philosophy & Objectives

- Build competence in economic regulation of infrastructure and utility sectors
- Develop skills in tariff design, cost-of-service and price-control methodologies
- Strengthen capability in regulatory governance and stakeholder management
- Prepare candidates to manage regulatory compliance for utility operators

Career Outcomes

- Regulatory Affairs Manager
- Utility Sector Economist
- Tariff & Pricing Analyst
- Infrastructure Policy Advisor
- Regulatory Compliance Manager

Admission & Entry Requirements

As specified under General MBA Admission & Entry Requirements above. Preference is given to candidates with cognate professional experience relevant to Infrastructure and Utility Regulation.

Programme Structure — Specialisation Core (Semesters 2–3)

Building on the Semester 1 Foundational Core, candidates undertake the following specialisation courses:

Code	Course Title	Units
MBA-IUR 711	Principles of Economic Regulation	3
MBA-IUR 712	Tariff Design & Cost-of-Service Analysis	3
MBA-IUR 713	Regulatory Governance & Institutional Design	3
MBA-IUR 714	Infrastructure Investment & Financing	3
MBA-IUR 715	Utility Sector Performance Management	3

Electives (Choose Two of Four)

Code	Course Title	Units
MBA-IUR 761	Electricity Sector Regulation (NESI)	3
MBA-IUR 762	Water & Sanitation Utility Regulation	3
MBA-IUR 763	Telecommunications Regulation	3
MBA-IUR 764	Transport Infrastructure Regulation	3

Capstone Project

Infrastructure Regulation Policy Capstone Project (MBA-IUR 790): a live, organisation-based applied consulting project through which candidates demonstrate integrated mastery of the Infrastructure and Utility Regulation specialisation core, presented and defended before a Faculty/Industry panel.

Graduation Requirements (Track-Specific Notes)

- In addition to the General MBA Graduation Requirements, candidates must complete all five specialisation core courses and two electives listed above, and the Capstone Project must be undertaken within the Infrastructure and Utility Regulation domain.

2.21 MBA in Energy Management

Prepares managers to lead energy operations, efficiency and strategy functions across power, industrial and commercial organisations in Nigeria's evolving energy landscape.

Philosophy & Objectives

- Build competence in energy operations, planning and demand management
- Develop skills in energy efficiency and industrial energy management
- Strengthen capability in energy business strategy and market analysis
- Prepare candidates to manage energy assets and portfolios

Career Outcomes

- Energy Operations Manager
- Energy Efficiency Manager
- Power Sector Business Manager
- Energy Portfolio/Asset Manager
- Energy Market Analyst

Admission & Entry Requirements

As specified under General MBA Admission & Entry Requirements above. Preference is given to candidates with cognate professional experience relevant to Energy Management.

Programme Structure — Specialisation Core (Semesters 2–3)

Building on the Semester 1 Foundational Core, candidates undertake the following specialisation courses:

Code	Course Title	Units
MBA-ENM 711	Energy Systems & Operations Management	3
MBA-ENM 712	Energy Markets & Business Strategy	3
MBA-ENM 713	Industrial & Commercial Energy Efficiency	3
MBA-ENM 714	Energy Asset & Portfolio Management	3
MBA-ENM 715	Power Sector Economics	3

Electives (Choose Two of Four)

Code	Course Title	Units
MBA-ENM 761	Distributed Energy & Mini-Grid Management	3
MBA-ENM 762	Energy Data Analytics	3
MBA-ENM 763	Demand-Side Management & Metering	3
MBA-ENM 764	Energy Policy & Regulation	3

Capstone Project

Energy Management Strategy Capstone Project (MBA-ENM 790): a live, organisation-based applied consulting project through which candidates demonstrate integrated mastery of the Energy Management specialisation core, presented and defended before a Faculty/Industry panel.

Graduation Requirements (Track-Specific Notes)

- In addition to the General MBA Graduation Requirements, candidates must complete all five specialisation core courses and two electives listed above, and the Capstone Project must be undertaken within the Energy Management domain.

2.22 MBA in Social Standards

Prepares managers to design, implement and audit social compliance and labour-standards programmes across supply chains, industry and development organisations.

Philosophy & Objectives

- Build competence in social compliance and labour standards frameworks
- Develop skills in social auditing and supply chain accountability
- Strengthen capability to design ethical sourcing and social impact programmes
- Prepare candidates to manage stakeholder engagement on social performance

Career Outcomes

- Social Compliance Manager
- Ethical Sourcing Manager
- Social Impact/CSR Manager
- Labour Standards Auditor
- Sustainability & Social Governance Consultant

Admission & Entry Requirements

As specified under General MBA Admission & Entry Requirements above. Preference is given to candidates with cognate professional experience relevant to Social Standards.

Programme Structure — Specialisation Core (Semesters 2–3)

Building on the Semester 1 Foundational Core, candidates undertake the following specialisation courses:

Code	Course Title	Units
MBA-SST 711	Social Compliance & Labour Standards	3
MBA-SST 712	Social Auditing & Supply Chain Accountability	3
MBA-SST 713	Corporate Social Responsibility Management	3
MBA-SST 714	Human Rights & Business	3
MBA-SST 715	Stakeholder Engagement & Social Reporting	3

Electives (Choose Two of Four)

Code	Course Title	Units
MBA-SST 761	Gender & Social Inclusion in Business	3
MBA-SST 762	Occupational Health & Safety Standards	3
MBA-SST 763	Community Development Programme Management	3
MBA-SST 764	Social Impact Measurement	3

Capstone Project

Social Compliance Programme Design Capstone Project (MBA-SST 790): a live, organisation-based applied consulting project through which candidates demonstrate integrated mastery of the Social Standards specialisation core, presented and defended before a Faculty/Industry panel.

Graduation Requirements (Track-Specific Notes)

- In addition to the General MBA Graduation Requirements, candidates must complete all five specialisation core courses and two electives listed above, and the Capstone Project must be undertaken within the Social Standards domain.

2.23 MBA in Advertising and Marketing Communications

Develops managers for leadership in advertising agencies, brand and marketing communications functions, integrating creative strategy with commercial performance.

Philosophy & Objectives

- Build competence in integrated marketing communications strategy
- Develop skills in advertising creative and media strategy
- Strengthen capability in brand management and campaign measurement
- Prepare candidates for leadership in agencies and client-side marketing

Career Outcomes

- Marketing Communications Director
- Advertising Agency Manager
- Brand Manager
- Media Planning & Buying Manager
- Integrated Campaign Strategist

Admission & Entry Requirements

As specified under General MBA Admission & Entry Requirements above. Preference is given to candidates with cognate professional experience relevant to Advertising and Marketing Communications.

Programme Structure — Specialisation Core (Semesters 2–3)

Building on the Semester 1 Foundational Core, candidates undertake the following specialisation courses:

Code	Course Title	Units
MBA-AMC 711	Integrated Marketing Communications	3
MBA-AMC 712	Advertising Creative & Media Strategy	3
MBA-AMC 713	Brand Management	3
MBA-AMC 714	Campaign Planning & Measurement	3
MBA-AMC 715	Consumer Behaviour & Insight	3

Electives (Choose Two of Four)

Code	Course Title	Units
MBA-AMC 761	Digital & Social Media Advertising	3
MBA-AMC 762	Agency Management & New Business	3
MBA-AMC 763	Out-of-Home & Experiential Marketing	3
MBA-AMC 764	Marketing Analytics	3

Capstone Project

Integrated Marketing Communications Capstone Project (MBA-AMC 790): a live, organisation-based applied consulting project through which candidates demonstrate integrated mastery of the Advertising and Marketing Communications specialisation core, presented and defended before a Faculty/Industry panel.

Graduation Requirements (Track-Specific Notes)

- In addition to the General MBA Graduation Requirements, candidates must complete all five specialisation core courses and two electives listed above, and the Capstone Project must be undertaken within the Advertising and Marketing Communications domain.

2.24 MBA in Advertising and Public Relations Management

Prepares managers to lead public relations, corporate communications and advertising functions, with emphasis on reputation management and stakeholder communication.

Philosophy & Objectives

- Build competence in corporate communications and reputation management
- Develop skills in public relations strategy and media relations
- Strengthen capability in crisis and issues communication management
- Prepare candidates for leadership in PR agencies and corporate communications

Career Outcomes

- Head of Corporate Communications
- Public Relations Director
- Reputation & Issues Management Consultant
- Media Relations Manager
- PR Agency Manager

Admission & Entry Requirements

As specified under General MBA Admission & Entry Requirements above. Preference is given to candidates with cognate professional experience relevant to Advertising and Public Relations Management.

Programme Structure — Specialisation Core (Semesters 2–3)

Building on the Semester 1 Foundational Core, candidates undertake the following specialisation courses:

Code	Course Title	Units
MBA-APR 711	Public Relations Theory & Practice	3
MBA-APR 712	Corporate Communications & Reputation Management	3
MBA-APR 713	Crisis & Issues Communication	3
MBA-APR 714	Media Relations & Publicity	3
MBA-APR 715	Stakeholder & Government Relations	3

Electives (Choose Two of Four)

Code	Course Title	Units
MBA-APR 761	Digital PR & Online Reputation	3
MBA-APR 762	Political & Public Affairs Communication	3
MBA-APR 763	Internal Communications & Employee Engagement	3
MBA-APR 764	Event & Sponsorship Communications	3

Capstone Project

Corporate Communications Strategy Capstone Project (MBA-APR 790): a live, organisation-based applied consulting project through which candidates demonstrate integrated mastery of the Advertising and Public Relations Management specialisation core, presented and defended before a Faculty/Industry panel.

Graduation Requirements (Track-Specific Notes)

- In addition to the General MBA Graduation Requirements, candidates must complete all five specialisation core courses and two electives listed above, and the Capstone Project must be undertaken within the Advertising and Public Relations Management domain.

2.25 MBA in Marketing & Communication

A broad-based marketing track covering strategic marketing management, market research and communications for managers across consumer and B2B sectors.

Philosophy & Objectives

- Build strong foundation in strategic marketing management
- Develop skills in market research, segmentation and targeting
- Strengthen capability in marketing communications and channel strategy
- Prepare candidates for general marketing leadership roles

Career Outcomes

- Marketing Director
- Head of Market Research & Insight
- Product/Category Marketing Manager
- Customer Experience Manager
- Marketing Strategy Consultant

Admission & Entry Requirements

As specified under General MBA Admission & Entry Requirements above. Preference is given to candidates with cognate professional experience relevant to Marketing & Communication.

Programme Structure — Specialisation Core (Semesters 2–3)

Building on the Semester 1 Foundational Core, candidates undertake the following specialisation courses:

Code	Course Title	Units
MBA-MKC 711	Strategic Marketing Management	3
MBA-MKC 712	Market Research & Consumer Insight	3
MBA-MKC 713	Marketing Communications Strategy	3
MBA-MKC 714	Product & Brand Portfolio Management	3
MBA-MKC 715	Sales & Channel Management	3

Electives (Choose Two of Four)

Code	Course Title	Units
MBA-MKC 761	Retail & Trade Marketing	3
MBA-MKC 762	B2B & Industrial Marketing	3
MBA-MKC 763	Customer Relationship Management	3
MBA-MKC 764	International Marketing	3

Capstone Project

Strategic Marketing Plan Capstone Project (MBA-MKC 790): a live, organisation-based applied consulting project through which candidates demonstrate integrated mastery of the Marketing & Communication specialisation core, presented and defended before a Faculty/Industry panel.

Graduation Requirements (Track-Specific Notes)

- In addition to the General MBA Graduation Requirements, candidates must complete all five specialisation core courses and two electives listed above, and the Capstone Project must be undertaken within the Marketing & Communication domain.

2.26 MBA in Risk Management and Insurance

Prepares managers for leadership in insurance, risk advisory and corporate risk functions, covering risk assessment, underwriting principles and insurance business management.

Philosophy & Objectives

- Build competence in enterprise and insurance risk assessment
- Develop understanding of underwriting, claims and insurance operations
- Strengthen skills in risk financing and reinsurance strategy
- Prepare candidates for leadership in insurance and risk advisory firms

Career Outcomes

- Chief Risk Officer
- Insurance Operations Manager
- Underwriting Manager
- Reinsurance & Risk Financing Manager
- Risk Advisory Consultant

Admission & Entry Requirements

As specified under General MBA Admission & Entry Requirements above. Preference is given to candidates with cognate professional experience relevant to Risk Management and Insurance.

Programme Structure — Specialisation Core (Semesters 2–3)

Building on the Semester 1 Foundational Core, candidates undertake the following specialisation courses:

Code	Course Title	Units
MBA-RMI 711	Principles of Risk Management & Insurance	3
MBA-RMI 712	Underwriting & Claims Management	3
MBA-RMI 713	Reinsurance & Risk Financing	3
MBA-RMI 714	Insurance Regulation & Compliance	3
MBA-RMI 715	Actuarial Concepts for Managers	3

Electives (Choose Two of Four)

Code	Course Title	Units
MBA-RMI 761	Microinsurance & Financial Inclusion	3
MBA-RMI 762	Marine, Aviation & Energy Insurance	3
MBA-RMI 763	Life & Health Insurance Management	3
MBA-RMI 764	InsurTech & Digital Distribution	3

Capstone Project

Risk & Insurance Strategy Capstone Project (MBA-RMI 790): a live, organisation-based applied consulting project through which candidates demonstrate integrated mastery of the Risk Management and Insurance specialisation core, presented and defended before a Faculty/Industry panel.

Graduation Requirements (Track-Specific Notes)

- In addition to the General MBA Graduation Requirements, candidates must complete all five specialisation core courses and two electives listed above, and the Capstone Project must be undertaken within the Risk Management and Insurance domain.

2.27 MBA in Enterprise Risk Management

Develops enterprise-wide risk leadership capability, equipping managers to design and embed integrated risk management frameworks across organisations.

Philosophy & Objectives

- Build competence in enterprise risk management frameworks (COSO/ISO 31000)
- Develop skills in operational, financial and strategic risk assessment
- Strengthen capability to embed risk culture and governance
- Prepare candidates for Chief Risk Officer and enterprise risk leadership roles

Career Outcomes

- Chief Risk Officer
- Enterprise Risk Manager
- Operational Risk Manager
- Internal Audit & Risk Director
- Risk Governance Consultant

Admission & Entry Requirements

As specified under General MBA Admission & Entry Requirements above. Preference is given to candidates with cognate professional experience relevant to Enterprise Risk Management.

Programme Structure — Specialisation Core (Semesters 2–3)

Building on the Semester 1 Foundational Core, candidates undertake the following specialisation courses:

Code	Course Title	Units
MBA-ERM 711	Enterprise Risk Management Frameworks	3
MBA-ERM 712	Operational & Strategic Risk Assessment	3
MBA-ERM 713	Financial Risk Management	3
MBA-ERM 714	Risk Governance & Culture	3
MBA-ERM 715	Business Continuity & Resilience Management	3

Electives (Choose Two of Four)

Code	Course Title	Units
MBA-ERM 761	Credit & Market Risk Management	3
MBA-ERM 762	Technology & Cyber-Risk	3
MBA-ERM 763	Regulatory Risk & Compliance Management	3
MBA-ERM 764	Risk Analytics & Modelling	3

Capstone Project

Enterprise Risk Framework Design Capstone Project (MBA-ERM 790): a live, organisation-based applied consulting project through which candidates demonstrate integrated mastery of the Enterprise Risk Management specialisation core, presented and defended before a Faculty/Industry panel.

Graduation Requirements (Track-Specific Notes)

- In addition to the General MBA Graduation Requirements, candidates must complete all five specialisation core courses and two electives listed above, and the Capstone Project must be undertaken within the Enterprise Risk Management domain.

2.28 MBA in Capital Markets & Investments

Prepares managers for leadership in investment banking, asset management and capital markets, covering securities markets, valuation and portfolio management.

Philosophy & Objectives

- Build competence in capital markets structure, instruments and regulation
- Develop skills in security valuation and portfolio management
- Strengthen capability in investment banking and corporate finance advisory
- Prepare candidates for leadership in asset management and capital markets institutions

Career Outcomes

- Investment Banker
- Portfolio/Fund Manager
- Capital Markets Analyst
- Equity/Fixed Income Research Manager
- Corporate Finance Advisor

Admission & Entry Requirements

As specified under General MBA Admission & Entry Requirements above. Preference is given to candidates with cognate professional experience relevant to Capital Markets & Investments.

Programme Structure — Specialisation Core (Semesters 2–3)

Building on the Semester 1 Foundational Core, candidates undertake the following specialisation courses:

Code	Course Title	Units
MBA-CMI 711	Capital Markets Structure & Regulation	3
MBA-CMI 712	Security Analysis & Valuation	3
MBA-CMI 713	Portfolio & Asset Management	3
MBA-CMI 714	Investment Banking & Corporate Finance Advisory	3
MBA-CMI 715	Fixed Income & Derivatives	3

Electives (Choose Two of Four)

Code	Course Title	Units
MBA-CMI 761	Private Equity & Venture Capital	3
MBA-CMI 762	Mergers & Acquisitions	3
MBA-CMI 763	Alternative Investments	3
MBA-CMI 764	ESG & Sustainable Investing	3

Capstone Project

Investment Strategy & Portfolio Capstone Project (MBA-CMI 790): a live, organisation-based applied consulting project through which candidates demonstrate integrated mastery of the Capital Markets & Investments specialisation core, presented and defended before a Faculty/Industry panel.

Graduation Requirements (Track-Specific Notes)

- In addition to the General MBA Graduation Requirements, candidates must complete all five specialisation core courses and two electives listed above, and the Capstone Project must be undertaken within the Capital Markets & Investments domain.

2.29 MBA in Quantitative Finance

A technically rigorous track building quantitative and analytical capability for careers in trading, risk modelling, financial engineering and data-driven finance.

Philosophy & Objectives

- Build strong quantitative and mathematical finance foundations
- Develop competence in financial modelling and derivatives pricing
- Strengthen skills in risk modelling and quantitative analytics
- Prepare candidates for quantitative roles in banking, trading and fintech

Career Outcomes

- Quantitative Analyst
- Financial Risk Modeller
- Derivatives Trader/Structurer
- Financial Data Scientist
- Treasury & Markets Analyst

Admission & Entry Requirements

As specified under General MBA Admission & Entry Requirements above. Preference is given to candidates with cognate professional experience relevant to Quantitative Finance.

Programme Structure — Specialisation Core (Semesters 2–3)

Building on the Semester 1 Foundational Core, candidates undertake the following specialisation courses:

Code	Course Title	Units
MBA-QNF 711	Mathematical Finance & Financial Modelling	3
MBA-QNF 712	Derivatives Pricing & Valuation	3
MBA-QNF 713	Quantitative Risk Modelling	3
MBA-QNF 714	Financial Data Analytics & Programming	3
MBA-QNF 715	Fixed Income Quantitative Methods	3

Electives (Choose Two of Four)

Code	Course Title	Units
MBA-QNF 761	Algorithmic & Systematic Trading	3
MBA-QNF 762	Machine Learning in Finance	3
MBA-QNF 763	Stochastic Processes for Finance	3
MBA-QNF 764	Treasury & Market Risk Analytics	3

Capstone Project

Quantitative Finance Modelling Capstone Project (MBA-QNF 790): a live, organisation-based applied consulting project through which candidates demonstrate integrated mastery of the Quantitative Finance specialisation core, presented and defended before a Faculty/Industry panel.

Graduation Requirements (Track-Specific Notes)

- In addition to the General MBA Graduation Requirements, candidates must complete all five specialisation core courses and two electives listed above, and the Capstone Project must be undertaken within the Quantitative Finance domain.

2.30 MBA in Real Estate Development

Prepares managers for leadership in property development, real estate investment and facilities management across Nigeria's growing built-environment sector.

Philosophy & Objectives

- Build competence in real estate development and project feasibility
- Develop skills in property investment analysis and finance
- Strengthen capability in facilities and asset management
- Prepare candidates for leadership in development and real estate investment firms

Career Outcomes

- Real Estate Development Manager
- Property Investment Analyst
- Facilities/Asset Manager
- Real Estate Fund Manager
- Construction & Development Project Manager

Admission & Entry Requirements

As specified under General MBA Admission & Entry Requirements above. Preference is given to candidates with cognate professional experience relevant to Real Estate Development.

Programme Structure — Specialisation Core (Semesters 2–3)

Building on the Semester 1 Foundational Core, candidates undertake the following specialisation courses:

Code	Course Title	Units
MBA-RED 711	Real Estate Development & Feasibility	3
MBA-RED 712	Property Investment & Finance	3
MBA-RED 713	Real Estate Law & Land Administration	3
MBA-RED 714	Facilities & Asset Management	3
MBA-RED 715	Urban Planning & Real Estate Markets	3

Electives (Choose Two of Four)

Code	Course Title	Units
MBA-RED 761	Affordable Housing Development	3
MBA-RED 762	Real Estate Investment Trusts (REITs)	3
MBA-RED 763	Construction Project & Cost Management	3
MBA-RED 764	Smart Buildings & PropTech	3

Capstone Project

Real Estate Development Feasibility Capstone Project (MBA-RED 790): a live, organisation-based applied consulting project through which candidates demonstrate integrated mastery of the Real Estate Development specialisation core, presented and defended before a Faculty/Industry panel.

Graduation Requirements (Track-Specific Notes)

- In addition to the General MBA Graduation Requirements, candidates must complete all five specialisation core courses and two electives listed above, and the Capstone Project must be undertaken within the Real Estate Development domain.

3. Doctor of Business Administration (DBA/DPA) — Thirty Specialisation Tracks

Programme Overview

The DBA/DPA is a practitioner-research doctoral degree spanning three years: two years of coursework and doctoral seminars, followed by a mandatory Field Global Immersion / International Study Tour, a Comprehensive Examination, and a one-year period of Applied Doctoral Research culminating in dissertation defence. The programme is delivered through blended Open Distance Learning with structured residencies and one-on-one supervision, designed for senior practitioners seeking to generate original, practice-relevant management knowledge.

Award	Doctor of Business Administration (DBA/DPA)
Duration	6 Semesters (minimum) / 10 Semesters (maximum)
Mode of Study	Open and Distance Learning (ODL) — blended print, e-learning, tutorials, and examinations
Awarding Institution	National Open University of Nigeria, NOUN Business School

Philosophy & Objectives

- To develop senior practitioners capable of generating original, rigorous, practice-relevant management research
- To bridge the gap between academic management theory and applied organisational problem-solving
- To expose candidates to global best practice through mandatory international immersion
- To produce thought leaders capable of shaping policy and practice within their specialisation

General Admission & Entry Requirements (All DBA/DPA Tracks)

A Master's degree (MBA or relevant Master's, minimum CGPA of 3.5 on a 5-point scale or equivalent) from a recognised university, plus a minimum of five (5) years senior-level management or professional experience. Candidates must submit a research concept note aligned to one of the specialisation tracks.

Doctoral Core — Year 1 (Common to All 30 DBA/DPA Tracks)

Every DBA candidate completes the following eight-course doctoral core across Year 1 before proceeding to specialisation seminars:

Code	Course Title	Units
DBA 811	Advanced Philosophy of Management Science & Epistemology of Business Research	3
DBA 812	Advanced Quantitative Research Methods	3
DBA 813	Advanced Qualitative & Mixed-Methods Research	3
DBA 814	Strategic Theory & Organisational Design	3
DBA 815	Global Business Environment & Comparative Management	3
DBA 816	Applied Econometrics for Managers	3

Code	Course Title	Units
DBA 817	Ethics, Governance & Corporate Responsibility	3
DBA 818	Doctoral Seminar & Research Proposal Development	3

Programme Architecture (All Tracks)

- Year 1: Doctoral Core (8 courses, 24 units) — common to all specialisations
- Year 2: Specialisation Seminars (5 courses) and Electives (2 of 4 offered) — track-specific, detailed in each track profile below
- Year 2 (End) — Year 3 (Start): Comprehensive Examination and mandatory Field Global Immersion / International Study Tour
- Year 3: Applied Doctoral Research — dissertation research, writing and oral defence in the candidate's specialisation

General Graduation Requirements (All DBA/DPA Tracks)

- Minimum of 72 credit units across coursework, seminars and doctoral research
- Minimum Cumulative Grade Point Average (CGPA) of 3.50 on a 5-point scale in coursework
- Successful completion of the Comprehensive Examination
- Satisfactory completion of the Field Global Immersion / International Study Tour
- Successful oral defence of the Applied Doctoral Research dissertation before an external panel
- Submission of at least one peer-reviewed journal article derived from the dissertation, in line with University policy
- Full clearance of all academic and administrative obligations to the University

Detailed profiles for each of the 30 DBA specialisation tracks — including programme overview, philosophy, career outcomes, specialisation seminar content and track-specific research focus — follow below.

3.1 DBA in Digital Business Transformation

Prepares managers to lead enterprise-wide digital change, from process automation to data-driven business models, in organisations across Nigeria's rapidly digitising economy.

Philosophy & Objectives

- Equip candidates to design and lead digital transformation roadmaps
- Build fluency in digital business models, platforms and ecosystems
- Develop capability to manage organisational change through technology adoption
- Instil data-informed decision-making as a core managerial competence

Career Outcomes

- Chief Digital Officer
- Digital Transformation Consultant
- Head of Innovation
- IT/Business Strategy Manager
- Digital Product Manager

Admission & Entry Requirements

As specified under General DBA Admission & Entry Requirements above. Candidates apply with a research concept note in Digital Business Transformation, to be refined during Year 1 doctoral seminars into a formal dissertation proposal.

Programme Structure — Specialisation Seminars (Year 2)

Building on the Year 1 Doctoral Core, candidates undertake the following specialisation research seminars:

Code	Course Title	Units
DBA-DBT 821	Advanced Digital Business Strategy	3
DBA-DBT 822	Advanced Enterprise Systems & Process Automation	3
DBA-DBT 823	Data-Driven Decision Making	3
DBA-DBT 824	Change Management for Digital Enterprises	3
DBA-DBT 825	Platform & Ecosystem Business Models	3

Electives (Choose Two of Four)

Code	Course Title	Units
DBA-DBT 851	Cloud & Emerging Technology for Business	3
DBA-DBT 852	Digital Customer Experience Design	3
DBA-DBT 853	Agile & Lean Transformation	3
DBA-DBT 854	Technology Governance & Risk	3

Applied Doctoral Research

Following the Comprehensive Examination and Field Global Immersion, candidates undertake Applied Doctoral Research (DBA-DBT 900) resulting in an original dissertation addressing a significant practice problem within Digital Business Transformation, defended orally before an external panel.

Graduation Requirements (Track-Specific Notes)

- In addition to the General DBA Graduation Requirements, candidates must complete all five specialisation seminars and two electives listed above with a minimum grade of B, and the dissertation topic must fall within the Digital Business Transformation track.

3.2 DBA in FinTech and Financial Innovation

Develops leaders for Nigeria's financial technology sector, combining financial management fundamentals with innovation in digital payments, lending and financial inclusion.

Philosophy & Objectives

- Build deep understanding of fintech business models and regulatory frameworks
- Develop skills in digital payments, mobile money and alternative lending
- Prepare candidates to lead innovation within banks and fintech start-ups
- Strengthen risk and compliance competence specific to financial innovation

Career Outcomes

- Fintech Product Manager
- Head of Digital Banking
- Financial Innovation Consultant
- Payments Strategy Lead
- Regulatory & Compliance Manager (Fintech)

Admission & Entry Requirements

As specified under General DBA Admission & Entry Requirements above. Candidates apply with a research concept note in FinTech and Financial Innovation, to be refined during Year 1 doctoral seminars into a formal dissertation proposal.

Programme Structure — Specialisation Seminars (Year 2)

Building on the Year 1 Doctoral Core, candidates undertake the following specialisation research seminars:

Code	Course Title	Units
DBA-FTI 821	Fintech Business Models & Innovation	3
DBA-FTI 822	Digital Payments & Mobile Money Systems	3
DBA-FTI 823	Financial Regulation & Compliance	3
DBA-FTI 824	Alternative Lending & Credit Analytics	3
DBA-FTI 825	Blockchain & Distributed Ledger Applications in Finance	3

Electives (Choose Two of Four)

Code	Course Title	Units
DBA-FTI 851	Financial Inclusion Strategy	3
DBA-FTI 852	Cybersecurity in Financial Services	3
DBA-FTI 853	Venture Financing for Fintech Start-ups	3
DBA-FTI 854	InsurTech & RegTech	3

Applied Doctoral Research

Following the Comprehensive Examination and Field Global Immersion, candidates undertake Applied Doctoral Research (DBA-FTI 900) resulting in an original dissertation addressing a significant practice problem within FinTech and Financial Innovation, defended orally before an external panel.

Graduation Requirements (Track-Specific Notes)

- In addition to the General DBA Graduation Requirements, candidates must complete all five specialisation seminars and two electives listed above with a minimum grade of B, and the dissertation topic must fall within the FinTech and Financial Innovation track.

3.3 DBA in Energy Transition and Sustainability Management

Prepares managers to lead organisations through Nigeria's energy transition, integrating renewable energy strategy, sustainability management and climate-conscious business practice.

Philosophy & Objectives

- Build competence in energy transition strategy and renewable energy business models
- Develop capacity to design and implement corporate sustainability programmes
- Strengthen understanding of climate policy, carbon markets and ESG frameworks
- Prepare candidates to manage energy projects across the transition value chain

Career Outcomes

- Sustainability Manager
- Renewable Energy Project Manager
- ESG & Climate Risk Analyst
- Energy Transition Consultant
- Corporate Sustainability Director

Admission & Entry Requirements

As specified under General DBA Admission & Entry Requirements above. Candidates apply with a research concept note in Energy Transition and Sustainability Management, to be refined during Year 1 doctoral seminars into a formal dissertation proposal.

Programme Structure — Specialisation Seminars (Year 2)

Building on the Year 1 Doctoral Core, candidates undertake the following specialisation research seminars:

Code	Course Title	Units
DBA-ETS 821	Advanced Energy Transition Strategy & Policy	3
DBA-ETS 822	Advanced Renewable Energy Business Models	3
DBA-ETS 823	Advanced Corporate Sustainability & ESG Management	3
DBA-ETS 824	Climate Risk & Carbon Markets	3
DBA-ETS 825	Energy Project Finance	3

Electives (Choose Two of Four)

Code	Course Title	Units
DBA-ETS 851	Off-Grid & Mini-Grid Business Development	3
DBA-ETS 852	Circular Economy & Resource Management	3
DBA-ETS 853	Environmental Impact Assessment for Managers	3
DBA-ETS 854	Green Finance & Investment	3

Applied Doctoral Research

Following the Comprehensive Examination and Field Global Immersion, candidates undertake Applied Doctoral Research (DBA-ETS 900) resulting in an original dissertation addressing a significant practice problem within Energy Transition and Sustainability Management, defended orally before an external panel.

Graduation Requirements (Track-Specific Notes)

- In addition to the General DBA Graduation Requirements, candidates must complete all five specialisation seminars and two electives listed above with a minimum grade of B, and the dissertation topic must fall within the Energy Transition and Sustainability Management track.

3.4 DBA in Entrepreneurship and Innovation Management

Builds the competencies required to found, scale and manage innovative ventures, with emphasis on Nigeria's entrepreneurial ecosystem and emerging-market venture growth.

Philosophy & Objectives

- Develop skills to identify, evaluate and launch viable business opportunities
- Build competence in venture financing, growth strategy and scaling
- Strengthen innovation management capability within existing organisations
- Prepare candidates to navigate emerging-market entrepreneurial ecosystems

Career Outcomes

- Startup Founder/CEO
- Innovation Manager
- Venture Capital Analyst
- Business Incubator/Accelerator Manager
- New Business Development Lead

Admission & Entry Requirements

As specified under General DBA Admission & Entry Requirements above. Candidates apply with a research concept note in Entrepreneurship and Innovation Management, to be refined during Year 1 doctoral seminars into a formal dissertation proposal.

Programme Structure — Specialisation Seminars (Year 2)

Building on the Year 1 Doctoral Core, candidates undertake the following specialisation research seminars:

Code	Course Title	Units
DBA-EIM 821	New Venture Creation	3
DBA-EIM 822	Innovation & Design Thinking	3
DBA-EIM 823	Venture Financing & Growth Strategy	3
DBA-EIM 824	Business Model Design & Validation	3
DBA-EIM 825	Corporate Entrepreneurship & Intrapreneurship	3

Electives (Choose Two of Four)

Code	Course Title	Units
DBA-EIM 851	Social Entrepreneurship	3
DBA-EIM 852	Scaling Ventures in Emerging Markets	3
DBA-EIM 853	Technology Commercialisation	3
DBA-EIM 854	Franchising & Licensing	3

Applied Doctoral Research

Following the Comprehensive Examination and Field Global Immersion, candidates undertake Applied Doctoral Research (DBA-EIM 900) resulting in an original dissertation addressing a significant practice problem within Entrepreneurship and Innovation Management, defended orally before an external panel.

Graduation Requirements (Track-Specific Notes)

- In addition to the General DBA Graduation Requirements, candidates must complete all five specialisation seminars and two electives listed above with a minimum grade of B, and the dissertation topic must fall within the Entrepreneurship and Innovation Management track.

3.5 DPA in Public Policy and Governance Management

Equips public sector managers, policy analysts and civil society leaders with the analytical and managerial tools to design, implement and evaluate public policy.

Philosophy & Objectives

- Build capacity for evidence-based public policy design and analysis
- Develop competence in public sector governance, ethics and accountability
- Strengthen skills in public finance and budget management
- Prepare candidates to manage policy implementation and stakeholder engagement

Career Outcomes

- Policy Analyst
- Public Sector Manager
- Governance Advisor
- Development Programme Manager
- Regulatory Affairs Manager

Admission & Entry Requirements

As specified under General DPA Admission & Entry Requirements above. Candidates apply with a research concept note in Public Policy and Governance Management, to be refined during Year 1 doctoral seminars into a formal dissertation proposal.

Programme Structure — Specialisation Seminars (Year 2)

Building on the Year 1 Doctoral Core, candidates undertake the following specialisation research seminars:

Code	Course Title	Units
DPA-PPG 821	Advanced Public Policy Analysis & Design	3
DPA-PPG 822	Advanced Public Sector Governance & Accountability	3
DPA-PPG 823	Advanced Public Finance & Budget Management	3
DPA-PPG 824	Advanced Policy Implementation & Evaluation	3
DPA-PPG 825	Advanced Government Relations & Stakeholder Management	3

Electives (Choose Two of Four)

Code	Course Title	Units
DPA-PPG 851	Advanced Local Government Administration	3
DPA-PPG 852	Advanced Anti-Corruption & Transparency Systems	3
DPA-PPG 853	Advanced Development Economics for Policy Managers	3
DPA-PPG 854	Advanced E-Government & Digital Public Services	3

Applied Doctoral Research

Following the Comprehensive Examination and Field Global Immersion, candidates undertake Applied Doctoral Research (DPA-PPG 900) resulting in an original dissertation addressing a significant practice problem within Public Policy and Governance Management, defended orally before an external panel.

Graduation Requirements (Track-Specific Notes)

- In addition to the General DPA Graduation Requirements, candidates must complete all five specialisation seminars and two electives listed above with a minimum grade of B, and the dissertation topic must fall within the Public Policy and Governance Management track.

3.6 DPA in Healthcare Administration and HealthTech Management

Prepares managers to lead hospitals, health systems and health-technology ventures, combining healthcare operations with digital health innovation.

Philosophy & Objectives

- Build competence in healthcare operations and quality management
- Develop skills in health system financing and health insurance management
- Strengthen capability to manage digital health and telemedicine ventures
- Prepare candidates for leadership across public and private health systems

Career Outcomes

- Hospital Administrator
- Health System Manager
- HealthTech Product Manager
- Health Insurance/HMO Manager
- Health Policy Consultant

Admission & Entry Requirements

As specified under General DPA Admission & Entry Requirements above. Candidates apply with a research concept note in Healthcare Administration and HealthTech Management, to be refined during Year 1 doctoral seminars into a formal dissertation proposal.

Programme Structure — Specialisation Seminars (Year 2)

Building on the Year 1 Doctoral Core, candidates undertake the following specialisation research seminars:

Code	Course Title	Units
DPA-HHM 821	Advanced Healthcare Operations & Quality Management	3
DPA-HHM 822	Advanced Health Systems Financing & Insurance	3
DPA-HHM 823	Advanced Digital Health & Telemedicine Management	3
DPA-HHM 824	Advanced Healthcare Regulation & Ethics	3
DPA-HHM 825	Advanced Hospital Strategy & Leadership	3

Electives (Choose Two of Four)

Code	Course Title	Units
DPA-HHM 851	Advanced Pharmaceutical Supply Chain Management	3
DPA-HHM 852	Advanced Public Health Programme Management	3
DPA-HHM 853	Advanced Health Data Analytics	3
DPA-HHM 854	Advanced Medical Tourism & Wellness Business	3

Applied Doctoral Research

Following the Comprehensive Examination and Field Global Immersion, candidates undertake Applied Doctoral Research (DPA-HHM 900) resulting in an original dissertation addressing a significant practice problem within Healthcare Administration and HealthTech Management, defended orally before an external panel.

Graduation Requirements (Track-Specific Notes)

- In addition to the General DPA Graduation Requirements, candidates must complete all five specialisation seminars and two electives listed above with a minimum grade of B, and the dissertation topic must fall within the Healthcare Administration and HealthTech Management track.

3.7 DBA in Agribusiness and Food Systems

Develops managerial leaders for Nigeria's agricultural value chains, covering primary production through agro-processing, food systems policy and agri-finance.

Philosophy & Objectives

- Build competence in agribusiness value chain and farm-to-market management
- Develop skills in agro-processing operations and food systems logistics
- Strengthen capacity in agricultural finance and risk management
- Prepare candidates to design food security and agribusiness policy interventions

Career Outcomes

- Agribusiness Manager
- Agro-Processing Operations Manager
- Agricultural Finance Manager
- Food Systems Policy Analyst
- Commodity Trading Manager

Admission & Entry Requirements

As specified under General DBA Admission & Entry Requirements above. Candidates apply with a research concept note in Agribusiness and Food Systems, to be refined during Year 1 doctoral seminars into a formal dissertation proposal.

Programme Structure — Specialisation Seminars (Year 2)

Building on the Year 1 Doctoral Core, candidates undertake the following specialisation research seminars:

Code	Course Title	Units
DBA-AFS 821	Advanced Agribusiness Value Chain Management	3
DBA-AFS 822	Advanced Agro-Processing & Food Manufacturing Operations	3
DBA-AFS 823	Advanced Agricultural Finance & Risk Management	3
DBA-AFS 824	Food Systems Policy & Security	3
DBA-AFS 825	Agricultural Marketing & Commodity Trade	3

Electives (Choose Two of Four)

Code	Course Title	Units
DBA-AFS 851	Climate-Smart Agriculture Management	3
DBA-AFS 852	Agri-Tech & Precision Farming	3
DBA-AFS 853	Cooperative & Smallholder Business Development	3
DBA-AFS 854	Export & International Agri-Trade	3

Applied Doctoral Research

Following the Comprehensive Examination and Field Global Immersion, candidates undertake Applied Doctoral Research (DBA-AFS 900) resulting in an original dissertation addressing a significant practice problem within Agribusiness and Food Systems, defended orally before an external panel.

Graduation Requirements (Track-Specific Notes)

- In addition to the General DBA Graduation Requirements, candidates must complete all five specialisation seminars and two electives listed above with a minimum grade of B, and the dissertation topic must fall within the Agribusiness and Food Systems track.

3.8 DBA in Logistics and Supply Chain Management

Prepares managers to design and operate efficient, resilient supply chains across manufacturing, retail and trade sectors within Nigeria and West Africa.

Philosophy & Objectives

- Build competence in end-to-end supply chain design and operations
- Develop skills in logistics network planning and warehousing
- Strengthen capability in supply chain risk and resilience management
- Prepare candidates to apply technology to logistics and distribution

Career Outcomes

- Supply Chain Manager
- Logistics Operations Director
- Warehousing & Distribution Manager
- Supply Chain Risk Analyst
- Freight & Trade Logistics Manager

Admission & Entry Requirements

As specified under General DBA Admission & Entry Requirements above. Candidates apply with a research concept note in Logistics and Supply Chain Management, to be refined during Year 1 doctoral seminars into a formal dissertation proposal.

Programme Structure — Specialisation Seminars (Year 2)

Building on the Year 1 Doctoral Core, candidates undertake the following specialisation research seminars:

Code	Course Title	Units
DBA-LSC 821	Advanced Supply Chain Strategy & Design	3
DBA-LSC 822	Advanced Logistics & Distribution Management	3
DBA-LSC 823	Inventory & Warehouse Management	3
DBA-LSC 824	Supply Chain Risk & Resilience	3
DBA-LSC 825	Technology in Logistics (SCM Systems)	3

Electives (Choose Two of Four)

Code	Course Title	Units
DBA-LSC 851	International Trade & Freight Logistics	3
DBA-LSC 852	Sustainable & Green Logistics	3
DBA-LSC 853	Last-Mile & E-Commerce Logistics	3
DBA-LSC 854	Humanitarian Logistics	3

Applied Doctoral Research

Following the Comprehensive Examination and Field Global Immersion, candidates undertake Applied Doctoral Research (DBA-LSC 900) resulting in an original dissertation addressing a significant practice problem within Logistics and Supply Chain Management, defended orally before an external panel.

Graduation Requirements (Track-Specific Notes)

- In addition to the General DBA Graduation Requirements, candidates must complete all five specialisation seminars and two electives listed above with a minimum grade of B, and the dissertation topic must fall within the Logistics and Supply Chain Management track.

3.9 DBA in Procurement Management

Builds professional procurement leadership capability across public and private sectors, with emphasis on strategic sourcing, contract management and procurement compliance.

Philosophy & Objectives

- Develop competence in strategic sourcing and supplier relationship management
- Build skills in public and private sector procurement compliance
- Strengthen contract negotiation and management capability
- Prepare candidates to design procurement systems that deliver value for money

Career Outcomes

- Chief Procurement Officer
- Strategic Sourcing Manager
- Contracts Manager
- Public Procurement Officer
- Supplier Relationship Manager

Admission & Entry Requirements

As specified under General DBA Admission & Entry Requirements above. Candidates apply with a research concept note in Procurement Management, to be refined during Year 1 doctoral seminars into a formal dissertation proposal.

Programme Structure — Specialisation Seminars (Year 2)

Building on the Year 1 Doctoral Core, candidates undertake the following specialisation research seminars:

Code	Course Title	Units
DBA-PRM 821	Strategic Sourcing & Category Management	3
DBA-PRM 822	Public Procurement Law & Compliance	3
DBA-PRM 823	Contract Management & Negotiation	3
DBA-PRM 824	Supplier Relationship & Performance Management	3
DBA-PRM 825	Procurement Ethics & Value for Money	3

Electives (Choose Two of Four)

Code	Course Title	Units
DBA-PRM 851	E-Procurement Systems	3
DBA-PRM 852	International Procurement & Trade	3
DBA-PRM 853	Construction & Works Procurement	3
DBA-PRM 854	Procurement Risk & Fraud Prevention	3

Applied Doctoral Research

Following the Comprehensive Examination and Field Global Immersion, candidates undertake Applied Doctoral Research (DBA-PRM 900) resulting in an original dissertation addressing a significant practice problem within Procurement Management, defended orally before an external panel.

Graduation Requirements (Track-Specific Notes)

- In addition to the General DBA Graduation Requirements, candidates must complete all five specialisation seminars and two electives listed above with a minimum grade of B, and the dissertation topic must fall within the Procurement Management track.

3.10 DBA in Project Management

Develops professional project managers competent across the full project life cycle, aligned to global standards (PMI/PRINCE2) and adapted to Nigerian project environments.

Philosophy & Objectives

- Build mastery of project planning, execution, monitoring and closure
- Develop competence in project risk, cost and quality management
- Strengthen skills in programme and portfolio management
- Prepare candidates for globally recognised project management practice

Career Outcomes

- Project Manager/Director
- Programme Manager
- PMO Lead
- Project Risk Manager
- Construction/Infrastructure Project Manager

Admission & Entry Requirements

As specified under General DBA Admission & Entry Requirements above. Candidates apply with a research concept note in Project Management, to be refined during Year 1 doctoral seminars into a formal dissertation proposal.

Programme Structure — Specialisation Seminars (Year 2)

Building on the Year 1 Doctoral Core, candidates undertake the following specialisation research seminars:

Code	Course Title	Units
DBA-PJM 821	Project Planning & Scheduling	3
DBA-PJM 822	Project Risk, Cost & Quality Management	3
DBA-PJM 823	Programme & Portfolio Management	3
DBA-PJM 824	Project Procurement & Contract Administration	3
DBA-PJM 825	Agile & Adaptive Project Delivery	3

Electives (Choose Two of Four)

Code	Course Title	Units
DBA-PJM 851	Infrastructure & Construction Project Management	3
DBA-PJM 852	IT/Digital Project Management	3
DBA-PJM 853	Project Monitoring & Evaluation	3
DBA-PJM 854	International Development Project Management	3

Applied Doctoral Research

Following the Comprehensive Examination and Field Global Immersion, candidates undertake Applied Doctoral Research (DBA-PJM 900) resulting in an original dissertation addressing a significant practice problem within Project Management, defended orally before an external panel.

Graduation Requirements (Track-Specific Notes)

- In addition to the General DBA Graduation Requirements, candidates must complete all five specialisation seminars and two electives listed above with a minimum grade of B, and the dissertation topic must fall within the Project Management track.

3.11 DBA in Peace and Conflict Management

Prepares managers and practitioners to design and lead conflict-sensitive interventions, mediation processes and peacebuilding programmes in Nigeria and the wider region.

Philosophy & Objectives

- Build analytical capacity to assess conflict dynamics and drivers
- Develop skills in mediation, negotiation and dialogue facilitation
- Strengthen competence in peacebuilding programme design and management
- Prepare candidates to manage conflict-sensitive organisational and community settings

Career Outcomes

- Peacebuilding Programme Manager
- Conflict Resolution Advisor
- Humanitarian/Development Programme Officer
- Community Relations Manager
- Security & Stability Consultant

Admission & Entry Requirements

As specified under General DBA Admission & Entry Requirements above. Candidates apply with a research concept note in Peace and Conflict Management, to be refined during Year 1 doctoral seminars into a formal dissertation proposal.

Programme Structure — Specialisation Seminars (Year 2)

Building on the Year 1 Doctoral Core, candidates undertake the following specialisation research seminars:

Code	Course Title	Units
DBA-PCM 821	Advanced Conflict Analysis & Early Warning	3
DBA-PCM 822	Advanced Mediation & Negotiation Practice	3
DBA-PCM 823	Peacebuilding Programme Design & Management	3
DBA-PCM 824	Conflict-Sensitive Development	3
DBA-PCM 825	Post-Conflict Reconstruction & Reconciliation	3

Electives (Choose Two of Four)

Code	Course Title	Units
DBA-PCM 851	Gender, Peace & Security	3
DBA-PCM 852	Community Policing & Security Governance	3
DBA-PCM 853	Transitional Justice	3
DBA-PCM 854	Natural Resource Conflict Management	3

Applied Doctoral Research

Following the Comprehensive Examination and Field Global Immersion, candidates undertake Applied Doctoral Research (DBA-PCM 900) resulting in an original dissertation addressing a significant practice problem within Peace and Conflict Management, defended orally before an external panel.

Graduation Requirements (Track-Specific Notes)

- In addition to the General DBA Graduation Requirements, candidates must complete all five specialisation seminars and two electives listed above with a minimum grade of B, and the dissertation topic must fall within the Peace and Conflict Management track.

3.12 DBA in Cyber-Risk and Information Security Management

Builds managerial competence in cybersecurity governance, risk management and digital resilience, preparing leaders to protect organisational information assets.

Philosophy & Objectives

- Develop competence in cyber-risk governance and management frameworks
- Build capability to design organisational information security strategy
- Strengthen skills in cyber-incident response and business continuity
- Prepare candidates to manage cybersecurity compliance and regulation

Career Outcomes

- Chief Information Security Officer
- Cyber-Risk Manager
- IT Governance Manager
- Information Security Consultant
- Data Protection Officer

Admission & Entry Requirements

As specified under General DBA Admission & Entry Requirements above. Candidates apply with a research concept note in Cyber-Risk and Information Security Management, to be refined during Year 1 doctoral seminars into a formal dissertation proposal.

Programme Structure — Specialisation Seminars (Year 2)

Building on the Year 1 Doctoral Core, candidates undertake the following specialisation research seminars:

Code	Course Title	Units
DBA-CRM 821	Advanced Cybersecurity Governance & Strategy	3
DBA-CRM 822	Advanced Information Risk Management	3
DBA-CRM 823	Cyber-Incident Response & Business Continuity	3
DBA-CRM 824	Data Protection & Privacy Management	3
DBA-CRM 825	Security Compliance & Regulatory Frameworks	3

Electives (Choose Two of Four)

Code	Course Title	Units
DBA-CRM 851	Digital Forensics for Managers	3
DBA-CRM 852	Cloud & Infrastructure Security Management	3
DBA-CRM 853	Fraud & Financial Crime Prevention	3
DBA-CRM 854	Emerging Cyber-Threats & Technology Risk	3

Applied Doctoral Research

Following the Comprehensive Examination and Field Global Immersion, candidates undertake Applied Doctoral Research (DBA-CRM 900) resulting in an original dissertation addressing a significant practice problem within Cyber-Risk and Information Security Management, defended orally before an external panel.

Graduation Requirements (Track-Specific Notes)

- In addition to the General DBA Graduation Requirements, candidates must complete all five specialisation seminars and two electives listed above with a minimum grade of B, and the dissertation topic must fall within the Cyber-Risk and Information Security Management track.

3.13 DBA in Defense and Strategic Strategies

Prepares managers and strategic analysts for leadership roles in defense-related institutions, national security agencies and strategic planning functions.

Philosophy & Objectives

- Build competence in strategic planning and defense resource management
- Develop analytical capability in national and regional security studies
- Strengthen skills in strategic decision-making under uncertainty
- Prepare candidates for leadership in defense and security-related institutions

Career Outcomes

- Strategic Planning Officer
- Defense/Security Sector Manager
- National Security Analyst
- Strategic Studies Consultant
- Intelligence & Risk Analyst

Admission & Entry Requirements

As specified under General DBA Admission & Entry Requirements above. Candidates apply with a research concept note in Defense and Strategic Strategies, to be refined during Year 1 doctoral seminars into a formal dissertation proposal.

Programme Structure — Specialisation Seminars (Year 2)

Building on the Year 1 Doctoral Core, candidates undertake the following specialisation research seminars:

Code	Course Title	Units
DBA-DSS 821	Strategic Studies & National Security	3
DBA-DSS 822	Defense Resource & Programme Management	3
DBA-DSS 823	Geopolitics & Regional Security	3
DBA-DSS 824	Strategic Decision-Making & Wargaming	3
DBA-DSS 825	Security Sector Governance & Reform	3

Electives (Choose Two of Four)

Code	Course Title	Units
DBA-DSS 851	Intelligence Analysis for Managers	3
DBA-DSS 852	Counter-Terrorism Strategy	3
DBA-DSS 853	Maritime & Border Security Management	3
DBA-DSS 854	Crisis & Emergency Management	3

Applied Doctoral Research

Following the Comprehensive Examination and Field Global Immersion, candidates undertake Applied Doctoral Research (DBA-DSS 900) resulting in an original dissertation addressing a significant practice problem within Defense and Strategic Strategies, defended orally before an external panel.

Graduation Requirements (Track-Specific Notes)

- In addition to the General DBA Graduation Requirements, candidates must complete all five specialisation seminars and two electives listed above with a minimum grade of B, and the dissertation topic must fall within the Defense and Strategic Strategies track.

3.14 DBA in Family Business Management

Equips leaders of family-owned enterprises with the governance, succession and strategy tools required to professionalise and sustain multi-generational businesses.

Philosophy & Objectives

- Build competence in family business governance and succession planning
- Develop skills to professionalise family enterprise management structures
- Strengthen capability to manage family wealth, conflict and continuity
- Prepare candidates to lead growth and diversification in family firms

Career Outcomes

- Family Business CEO/Managing Director
- Family Office Manager
- Business Continuity/Succession Advisor
- Family Enterprise Consultant
- Chief Governance Officer (Family Firm)

Admission & Entry Requirements

As specified under General DBA Admission & Entry Requirements above. Candidates apply with a research concept note in Family Business Management, to be refined during Year 1 doctoral seminars into a formal dissertation proposal.

Programme Structure — Specialisation Seminars (Year 2)

Building on the Year 1 Doctoral Core, candidates undertake the following specialisation research seminars:

Code	Course Title	Units
DBA-FBM 821	Advanced Family Business Governance	3
DBA-FBM 822	Advanced Succession Planning & Leadership Transition	3
DBA-FBM 823	Family Wealth & Estate Management	3
DBA-FBM 824	Professionalising Family Enterprises	3
DBA-FBM 825	Conflict Management in Family Firms	3

Electives (Choose Two of Four)

Code	Course Title	Units
DBA-FBM 851	Family Business Growth & Diversification Strategy	3
DBA-FBM 852	Next-Generation Leadership Development	3
DBA-FBM 853	Family Business Law & Structuring	3
DBA-FBM 854	Philanthropy & Legacy Management	3

Applied Doctoral Research

Following the Comprehensive Examination and Field Global Immersion, candidates undertake Applied Doctoral Research (DBA-FBM 900) resulting in an original dissertation addressing a significant practice problem within Family Business Management, defended orally before an external panel.

Graduation Requirements (Track-Specific Notes)

- In addition to the General DBA Graduation Requirements, candidates must complete all five specialisation seminars and two electives listed above with a minimum grade of B, and the dissertation topic must fall within the Family Business Management track.

3.15 DBA in Aviation Management

Prepares managers for leadership in airlines, airports and aviation-support businesses, covering aviation operations, safety, regulation and commercial strategy.

Philosophy & Objectives

- Build competence in airline and airport operations management
- Develop understanding of aviation safety, security and regulatory frameworks
- Strengthen skills in aviation commercial and revenue strategy
- Prepare candidates for leadership across the aviation value chain

Career Outcomes

- Airline/Airport Operations Manager
- Aviation Safety & Compliance Manager
- Aviation Commercial Strategy Manager
- Ground Handling Operations Manager
- Aviation Regulatory Affairs Manager

Admission & Entry Requirements

As specified under General DBA Admission & Entry Requirements above. Candidates apply with a research concept note in Aviation Management, to be refined during Year 1 doctoral seminars into a formal dissertation proposal.

Programme Structure — Specialisation Seminars (Year 2)

Building on the Year 1 Doctoral Core, candidates undertake the following specialisation research seminars:

Code	Course Title	Units
DBA-AVM 821	Airline & Airport Operations Management	3
DBA-AVM 822	Aviation Safety & Security Management	3
DBA-AVM 823	Aviation Regulation & Policy	3
DBA-AVM 824	Aviation Commercial & Revenue Management	3
DBA-AVM 825	Air Transport Economics	3

Electives (Choose Two of Four)

Code	Course Title	Units
DBA-AVM 851	MRO & Aviation Maintenance Management	3
DBA-AVM 852	Cargo & Logistics Aviation Management	3
DBA-AVM 853	Airport Development & Infrastructure	3
DBA-AVM 854	Aviation Sustainability & Emissions Management	3

Applied Doctoral Research

Following the Comprehensive Examination and Field Global Immersion, candidates undertake Applied Doctoral Research (DBA-AVM 900) resulting in an original dissertation addressing a significant practice problem within Aviation Management, defended orally before an external panel.

Graduation Requirements (Track-Specific Notes)

- In addition to the General DBA Graduation Requirements, candidates must complete all five specialisation seminars and two electives listed above with a minimum grade of B, and the dissertation topic must fall within the Aviation Management track.

3.16 DBA in Migration Studies

Develops managerial and policy expertise in migration governance, labour mobility and diaspora engagement, relevant to government, multilateral and private-sector actors.

Philosophy & Objectives

- Build analytical capacity in migration drivers, patterns and policy
- Develop competence in labour migration and diaspora engagement management
- Strengthen skills in managing migration-related programmes and services
- Prepare candidates to advise on migration governance and protection frameworks

Career Outcomes

- Migration Programme Manager
- Diaspora Engagement Officer
- Labour Mobility Consultant
- Immigration/Border Management Advisor
- Refugee & Displacement Programme Manager

Admission & Entry Requirements

As specified under General DBA Admission & Entry Requirements above. Candidates apply with a research concept note in Migration Studies, to be refined during Year 1 doctoral seminars into a formal dissertation proposal.

Programme Structure — Specialisation Seminars (Year 2)

Building on the Year 1 Doctoral Core, candidates undertake the following specialisation research seminars:

Code	Course Title	Units
DBA-MGS 821	Migration Theory & Policy	3
DBA-MGS 822	Labour Migration & Diaspora Management	3
DBA-MGS 823	Migration Governance & International Frameworks	3
DBA-MGS 824	Displacement, Refugees & Humanitarian Response	3
DBA-MGS 825	Migration Data & Programme Management	3

Electives (Choose Two of Four)

Code	Course Title	Units
DBA-MGS 851	Remittances & Diaspora Investment	3
DBA-MGS 852	Human Trafficking & Smuggling Prevention	3
DBA-MGS 853	Border & Immigration Management	3
DBA-MGS 854	Urban Migration & City Planning	3

Applied Doctoral Research

Following the Comprehensive Examination and Field Global Immersion, candidates undertake Applied Doctoral Research (DBA-MGS 900) resulting in an original dissertation addressing a significant practice problem within Migration Studies, defended orally before an external panel.

Graduation Requirements (Track-Specific Notes)

- In addition to the General DBA Graduation Requirements, candidates must complete all five specialisation seminars and two electives listed above with a minimum grade of B, and the dissertation topic must fall within the Migration Studies track.

3.17 DBA in the Entertainment Economy and Creative Industries

Prepares managers to build and scale ventures across film, music, gaming and the wider creative economy, combining business fundamentals with creative-industry strategy.

Philosophy & Objectives

- Build competence in creative industry business models and value chains
- Develop skills in intellectual property, licensing and rights management
- Strengthen capability to finance, market and scale creative ventures
- Prepare candidates for leadership across Nigeria's growing creative economy

Career Outcomes

- Creative Industry Executive
- Entertainment Business Manager
- Content/IP Licensing Manager
- Talent & Artist Management Executive
- Creative Venture Founder

Admission & Entry Requirements

As specified under General DBA Admission & Entry Requirements above. Candidates apply with a research concept note in Entertainment Economy and Creative Industries, to be refined during Year 1 doctoral seminars into a formal dissertation proposal.

Programme Structure — Specialisation Seminars (Year 2)

Building on the Year 1 Doctoral Core, candidates undertake the following specialisation research seminars:

Code	Course Title	Units
DBA-ECI 821	Creative Industry Business Models	3
DBA-ECI 822	Entertainment Finance & Production Management	3
DBA-ECI 823	Intellectual Property & Rights Management	3
DBA-ECI 824	Talent, Content & Artist Management	3
DBA-ECI 825	Creative Marketing & Audience Development	3

Electives (Choose Two of Four)

Code	Course Title	Units
DBA-ECI 851	Film & Television Business Management	3
DBA-ECI 852	Music Business & Streaming Economics	3
DBA-ECI 853	Gaming & Digital Content Business	3
DBA-ECI 854	Live Events & Festival Management	3

Applied Doctoral Research

Following the Comprehensive Examination and Field Global Immersion, candidates undertake Applied Doctoral Research (DBA-ECI 900) resulting in an original dissertation addressing a significant practice problem within Entertainment Economy and Creative Industries, defended orally before an external panel.

Graduation Requirements (Track-Specific Notes)

- In addition to the General DBA Graduation Requirements, candidates must complete all five specialisation seminars and two electives listed above with a minimum grade of B, and the dissertation topic must fall within the Entertainment Economy and Creative Industries track.

3.18 DBA in Executive Leadership

A general-management track for senior and emerging executives, focused on strategic leadership, decision-making and organisational transformation at the highest level.

Philosophy & Objectives

- Sharpen strategic thinking and executive decision-making capability
- Build advanced competence in leading organisational transformation
- Develop high-performance leadership and team-building skills
- Prepare candidates for board-level and C-suite responsibility

Career Outcomes

- Chief Executive Officer
- Chief Operating Officer
- Executive Director
- Senior Management Consultant
- Board Member/Non-Executive Director

Admission & Entry Requirements

As specified under General DBA Admission & Entry Requirements above. Candidates apply with a research concept note in Executive Leadership, to be refined during Year 1 doctoral seminars into a formal dissertation proposal.

Programme Structure — Specialisation Seminars (Year 2)

Building on the Year 1 Doctoral Core, candidates undertake the following specialisation research seminars:

Code	Course Title	Units
DBA-EXL 821	Advanced Strategic Leadership	3
DBA-EXL 822	Executive Decision-Making	3
DBA-EXL 823	Leading Organisational Transformation	3
DBA-EXL 824	High-Performance Team Leadership	3
DBA-EXL 825	Corporate Governance for Executives	3

Electives (Choose Two of Four)

Code	Course Title	Units
DBA-EXL 851	Executive Negotiation & Influence	3
DBA-EXL 852	Crisis Leadership	3
DBA-EXL 853	Global Executive Perspectives	3
DBA-EXL 854	Board Effectiveness & Governance	3

Applied Doctoral Research

Following the Comprehensive Examination and Field Global Immersion, candidates undertake Applied Doctoral Research (DBA-EXL 900) resulting in an original dissertation addressing a significant practice problem within Executive Leadership, defended orally before an external panel.

Graduation Requirements (Track-Specific Notes)

- In addition to the General DBA Graduation Requirements, candidates must complete all five specialisation seminars and two electives listed above with a minimum grade of B, and the dissertation topic must fall within the Executive Leadership track.

3.19 DBA in Oil & Gas Management

Prepares managers for leadership across the upstream, midstream and downstream oil and gas value chain, with emphasis on Nigerian petroleum sector governance and commercial practice.

Philosophy & Objectives

- Build competence in oil and gas value chain operations and commercial management
- Develop understanding of petroleum sector policy, law and fiscal regimes
- Strengthen skills in energy project finance and risk management
- Prepare candidates for leadership across NOCs, IOCs and indigenous operators

Career Outcomes

- Oil & Gas Operations Manager
- Petroleum Commercial Manager
- Upstream/Midstream Project Manager
- Energy Regulatory Affairs Manager
- Petroleum Economics Analyst

Admission & Entry Requirements

As specified under General DBA Admission & Entry Requirements above. Candidates apply with a research concept note in Oil & Gas Management, to be refined during Year 1 doctoral seminars into a formal dissertation proposal.

Programme Structure — Specialisation Seminars (Year 2)

Building on the Year 1 Doctoral Core, candidates undertake the following specialisation research seminars:

Code	Course Title	Units
DBA-OGM 821	Petroleum Industry Value Chain Management	3
DBA-OGM 822	Oil & Gas Policy, Law & Fiscal Regimes	3
DBA-OGM 823	Petroleum Project Finance & Economics	3
DBA-OGM 824	Upstream & Midstream Operations Management	3
DBA-OGM 825	HSE & Risk Management in Oil & Gas	3

Electives (Choose Two of Four)

Code	Course Title	Units
DBA-OGM 851	Gas Commercialisation & Domestic Gas Strategy	3
DBA-OGM 852	Petroleum Contracts & Joint Venture Management	3
DBA-OGM 853	Downstream & Petroleum Products Marketing	3
DBA-OGM 854	Local Content & Indigenisation Strategy	3

Applied Doctoral Research

Following the Comprehensive Examination and Field Global Immersion, candidates undertake Applied Doctoral Research (DBA-OGM 900) resulting in an original dissertation addressing a significant practice problem within Oil & Gas Management, defended orally before an external panel.

Graduation Requirements (Track-Specific Notes)

- In addition to the General DBA Graduation Requirements, candidates must complete all five specialisation seminars and two electives listed above with a minimum grade of B, and the dissertation topic must fall within the Oil & Gas Management track.

3.20 DBA in Infrastructure and Utility Regulation

Develops regulatory and managerial expertise for Nigeria's infrastructure and utility sectors, covering economic regulation, tariff design and regulatory governance.

Philosophy & Objectives

- Build competence in economic regulation of infrastructure and utility sectors
- Develop skills in tariff design, cost-of-service and price-control methodologies
- Strengthen capability in regulatory governance and stakeholder management
- Prepare candidates to manage regulatory compliance for utility operators

Career Outcomes

- Regulatory Affairs Manager
- Utility Sector Economist
- Tariff & Pricing Analyst
- Infrastructure Policy Advisor
- Regulatory Compliance Manager

Admission & Entry Requirements

As specified under General DBA Admission & Entry Requirements above. Candidates apply with a research concept note in Infrastructure and Utility Regulation, to be refined during Year 1 doctoral seminars into a formal dissertation proposal.

Programme Structure — Specialisation Seminars (Year 2)

Building on the Year 1 Doctoral Core, candidates undertake the following specialisation research seminars:

Code	Course Title	Units
DBA-IUR 821	Principles of Economic Regulation	3
DBA-IUR 822	Tariff Design & Cost-of-Service Analysis	3
DBA-IUR 823	Regulatory Governance & Institutional Design	3
DBA-IUR 824	Infrastructure Investment & Financing	3
DBA-IUR 825	Utility Sector Performance Management	3

Electives (Choose Two of Four)

Code	Course Title	Units
DBA-IUR 851	Electricity Sector Regulation (NESI)	3
DBA-IUR 852	Water & Sanitation Utility Regulation	3
DBA-IUR 853	Telecommunications Regulation	3
DBA-IUR 854	Transport Infrastructure Regulation	3

Applied Doctoral Research

Following the Comprehensive Examination and Field Global Immersion, candidates undertake Applied Doctoral Research (DBA-IUR 900) resulting in an original dissertation addressing a significant practice problem within Infrastructure and Utility Regulation, defended orally before an external panel.

Graduation Requirements (Track-Specific Notes)

- In addition to the General DBA Graduation Requirements, candidates must complete all five specialisation seminars and two electives listed above with a minimum grade of B, and the dissertation topic must fall within the Infrastructure and Utility Regulation track.

3.21 DBA in Energy Management

Prepares managers to lead energy operations, efficiency and strategy functions across power, industrial and commercial organisations in Nigeria's evolving energy landscape.

Philosophy & Objectives

- Build competence in energy operations, planning and demand management
- Develop skills in energy efficiency and industrial energy management
- Strengthen capability in energy business strategy and market analysis
- Prepare candidates to manage energy assets and portfolios

Career Outcomes

- Energy Operations Manager
- Energy Efficiency Manager
- Power Sector Business Manager
- Energy Portfolio/Asset Manager
- Energy Market Analyst

Admission & Entry Requirements

As specified under General DBA Admission & Entry Requirements above. Candidates apply with a research concept note in Energy Management, to be refined during Year 1 doctoral seminars into a formal dissertation proposal.

Programme Structure — Specialisation Seminars (Year 2)

Building on the Year 1 Doctoral Core, candidates undertake the following specialisation research seminars:

Code	Course Title	Units
DBA-ENM 821	Energy Systems & Operations Management	3
DBA-ENM 822	Energy Markets & Business Strategy	3
DBA-ENM 823	Industrial & Commercial Energy Efficiency	3
DBA-ENM 824	Energy Asset & Portfolio Management	3
DBA-ENM 825	Power Sector Economics	3

Electives (Choose Two of Four)

Code	Course Title	Units
DBA-ENM 851	Distributed Energy & Mini-Grid Management	3
DBA-ENM 852	Energy Data Analytics	3
DBA-ENM 853	Demand-Side Management & Metering	3
DBA-ENM 854	Energy Policy & Regulation	3

Applied Doctoral Research

Following the Comprehensive Examination and Field Global Immersion, candidates undertake Applied Doctoral Research (DBA-ENM 900) resulting in an original dissertation addressing a significant practice problem within Energy Management, defended orally before an external panel.

Graduation Requirements (Track-Specific Notes)

- In addition to the General DBA Graduation Requirements, candidates must complete all five specialisation seminars and two electives listed above with a minimum grade of B, and the dissertation topic must fall within the Energy Management track.

3.22 DBA in Social Standards

Prepares managers to design, implement and audit social compliance and labour-standards programmes across supply chains, industry and development organisations.

Philosophy & Objectives

- Build competence in social compliance and labour standards frameworks
- Develop skills in social auditing and supply chain accountability
- Strengthen capability to design ethical sourcing and social impact programmes
- Prepare candidates to manage stakeholder engagement on social performance

Career Outcomes

- Social Compliance Manager
- Ethical Sourcing Manager
- Social Impact/CSR Manager
- Labour Standards Auditor
- Sustainability & Social Governance Consultant

Admission & Entry Requirements

As specified under General DBA Admission & Entry Requirements above. Candidates apply with a research concept note in Social Standards, to be refined during Year 1 doctoral seminars into a formal dissertation proposal.

Programme Structure — Specialisation Seminars (Year 2)

Building on the Year 1 Doctoral Core, candidates undertake the following specialisation research seminars:

Code	Course Title	Units
DBA-SST 821	Social Compliance & Labour Standards	3
DBA-SST 822	Social Auditing & Supply Chain Accountability	3
DBA-SST 823	Corporate Social Responsibility Management	3
DBA-SST 824	Human Rights & Business	3
DBA-SST 825	Stakeholder Engagement & Social Reporting	3

Electives (Choose Two of Four)

Code	Course Title	Units
DBA-SST 851	Gender & Social Inclusion in Business	3
DBA-SST 852	Occupational Health & Safety Standards	3
DBA-SST 853	Community Development Programme Management	3
DBA-SST 854	Social Impact Measurement	3

Applied Doctoral Research

Following the Comprehensive Examination and Field Global Immersion, candidates undertake Applied Doctoral Research (DBA-SST 900) resulting in an original dissertation addressing a significant practice problem within Social Standards, defended orally before an external panel.

Graduation Requirements (Track-Specific Notes)

- In addition to the General DBA Graduation Requirements, candidates must complete all five specialisation seminars and two electives listed above with a minimum grade of B, and the dissertation topic must fall within the Social Standards track.

3.23 DBA in Advertising and Marketing Communications

Develops managers for leadership in advertising agencies, brand and marketing communications functions, integrating creative strategy with commercial performance.

Philosophy & Objectives

- Build competence in integrated marketing communications strategy
- Develop skills in advertising creative and media strategy
- Strengthen capability in brand management and campaign measurement
- Prepare candidates for leadership in agencies and client-side marketing

Career Outcomes

- Marketing Communications Director
- Advertising Agency Manager
- Brand Manager
- Media Planning & Buying Manager
- Integrated Campaign Strategist

Admission & Entry Requirements

As specified under General DBA Admission & Entry Requirements above. Candidates apply with a research concept note in Advertising and Marketing Communications, to be refined during Year 1 doctoral seminars into a formal dissertation proposal.

Programme Structure — Specialisation Seminars (Year 2)

Building on the Year 1 Doctoral Core, candidates undertake the following specialisation research seminars:

Code	Course Title	Units
DBA-AMC 821	Integrated Marketing Communications	3
DBA-AMC 822	Advertising Creative & Media Strategy	3
DBA-AMC 823	Brand Management	3
DBA-AMC 824	Campaign Planning & Measurement	3
DBA-AMC 825	Consumer Behaviour & Insight	3

Electives (Choose Two of Four)

Code	Course Title	Units
DBA-AMC 851	Digital & Social Media Advertising	3
DBA-AMC 852	Agency Management & New Business	3
DBA-AMC 853	Out-of-Home & Experiential Marketing	3
DBA-AMC 854	Marketing Analytics	3

Applied Doctoral Research

Following the Comprehensive Examination and Field Global Immersion, candidates undertake Applied Doctoral Research (DBA-AMC 900) resulting in an original dissertation addressing a significant practice problem within Advertising and Marketing Communications, defended orally before an external panel.

Graduation Requirements (Track-Specific Notes)

- In addition to the General DBA Graduation Requirements, candidates must complete all five specialisation seminars and two electives listed above with a minimum grade of B, and the dissertation topic must fall within the Advertising and Marketing Communications track.

3.24 DBA in Advertising and Public Relations Management

Prepares managers to lead public relations, corporate communications and advertising functions, with emphasis on reputation management and stakeholder communication.

Philosophy & Objectives

- Build competence in corporate communications and reputation management
- Develop skills in public relations strategy and media relations
- Strengthen capability in crisis and issues communication management
- Prepare candidates for leadership in PR agencies and corporate communications

Career Outcomes

- Head of Corporate Communications
- Public Relations Director
- Reputation & Issues Management Consultant
- Media Relations Manager
- PR Agency Manager

Admission & Entry Requirements

As specified under General DBA Admission & Entry Requirements above. Candidates apply with a research concept note in Advertising and Public Relations Management, to be refined during Year 1 doctoral seminars into a formal dissertation proposal.

Programme Structure — Specialisation Seminars (Year 2)

Building on the Year 1 Doctoral Core, candidates undertake the following specialisation research seminars:

Code	Course Title	Units
DBA-APR 821	Public Relations Theory & Practice	3
DBA-APR 822	Corporate Communications & Reputation Management	3
DBA-APR 823	Crisis & Issues Communication	3
DBA-APR 824	Media Relations & Publicity	3
DBA-APR 825	Stakeholder & Government Relations	3

Electives (Choose Two of Four)

Code	Course Title	Units
DBA-APR 851	Digital PR & Online Reputation	3
DBA-APR 852	Political & Public Affairs Communication	3
DBA-APR 853	Internal Communications & Employee Engagement	3
DBA-APR 854	Event & Sponsorship Communications	3

Applied Doctoral Research

Following the Comprehensive Examination and Field Global Immersion, candidates undertake Applied Doctoral Research (DBA-APR 900) resulting in an original dissertation addressing a significant practice problem within Advertising and Public Relations Management, defended orally before an external panel.

Graduation Requirements (Track-Specific Notes)

- In addition to the General DBA Graduation Requirements, candidates must complete all five specialisation seminars and two electives listed above with a minimum grade of B, and the dissertation topic must fall within the Advertising and Public Relations Management track.

3.25 DBA in Marketing & Communication

A broad-based marketing track covering strategic marketing management, market research and communications for managers across consumer and B2B sectors.

Philosophy & Objectives

- Build strong foundation in strategic marketing management
- Develop skills in market research, segmentation and targeting
- Strengthen capability in marketing communications and channel strategy

DBA-RED 824	Facilities & Asset Management	3
DBA-RED 825	Urban Planning & Real Estate Markets	3

Electives (Choose Two of Four)

Code	Course Title	Units
DBA-RED 851	Affordable Housing Development	3
DBA-RED 852	Real Estate Investment Trusts (REITs)	3
DBA-RED 853	Construction Project & Cost Management	3
DBA-RED 854	Smart Buildings & PropTech	3

Applied Doctoral Research

Following the Comprehensive Examination and Field Global Immersion, candidates undertake Applied Doctoral Research (DBA-RED 900) resulting in an original dissertation addressing a significant practice problem within Real Estate Development, defended orally before an external panel.

Graduation Requirements (Track-Specific Notes)

- In addition to the General DBA Graduation Requirements, candidates must complete all five specialisation seminars and two electives listed above with a minimum grade of B, and the dissertation topic must fall within the Real Estate Development track.

4. Executive Certificate Programmes (Non-Degree)

Programme Overview

The Executive Certificate Programmes are short, modular, non-degree qualifications designed for working professionals seeking targeted upskilling. Delivered over 12–16 weeks in a weekend/evening modular format, each certificate is credit-transferable toward the GDBA, MBA and MPA for candidates who later choose to pursue the full qualification.

Areas Offered

- Data Analytics
- FinTech
- ESG Reporting
- Project Management
- Public Procurement
- Entrepreneurship
- Healthcare Administration
- Digital Marketing

Entry Qualification

OND/HND/First Degree or relevant professional/work experience. Open to working professionals across all listed areas.

Graduation Requirements

- Satisfactory attendance and completion of all modular sessions
- Successful completion of the end-of-programme assessment/project
- Credits earned are transferable toward the GDBA or relevant MBA/MPA Foundational Core, subject to Academic Board approval
